# PART A: GENERAL INFORMATION STATEMENT BY THE EXECUTIVE AUTHORITY

Casidra's 2022/2023 Annual Report and Social and Ethics Report provide insight into the extent in which the organisation has successfully leveraged its unique strategic position to support agriculture and land reform, rural infrastructure development and poverty alleviation as well as local economic and business development in rural communities within the Western Cape.

The Annual Report also reflects **Casidra**'s commitment to bring, into sharper focus, the long-term sustainability of the organisation.

Despite the threat of decreasing budgets negatively impacting the organisation's ability to continue to provide services to its clients, **Casidra** displayed the agility and ability to adapt and, through the commitment of management and staff, continue to respond to the development needs of our communities through the focus on its six key deliverables and alignment to the Western Cape Government's three priority areas - safety, jobs and wellbeing.

Delivery took place within the context of new challenges such as the energy crisis, biosecurity, the shortage of animal vaccines and climate change. Added to this is the impact of geopolitical events such as Russia's war on Ukraine, which has negatively impacted food security and the cost of agricultural inputs such as fertiliser and fuel

I am pleased that **Casidra**'s mission to maximise agricultural and economic development opportunities in rural communities through project management excellence backs the Western Cape Government's Growth for Jobs strategy, which seeks to boost economic growth for job creation.

I wish to express my gratitude to the Chairman of the Board of **Casidra**, Prof. Johann Kirsten and his fellow directors, CEO, Dr Keith Du Plessis, senior managers and staff for their continued commitment to the agriculture sector and the people of the Western Cape.

Dr Ivan Meyer

Minister of Agriculture Western Cape Government

24 August 2023

### Introduction

During the period under review, Casida has continued to play a crucial role in developing self-sustainable communities across the Western Cape through the delivery of the Comprehensive Agricultural Support Programme (CASP), disaster relief support and household and community food security projects to farmers and communities. All of these programmes are implemented on behalf of our Shareholder department and partner, the Western Cape Department of Agriculture. Notwithstanding that disruptions caused by the COVID-19 pandemic have, to a large extent, been replaced by the energy crises, Casidra remained focused on ensuring that we deliver on our service delivery goals underpinned by our six strategic priorities.

The 2022/23 Shareholder's Compact was signed between the Board of Directors and the Executive Authority as per the 2007 Cabinet Mandate. **Casidra** has again committed itself to superior service delivery and to be the leading partner and catalyst in the development of rural areas through agricultural and economic development programmes.

### Overview of strategy and performance

During this financial year (FY), Casidra focussed extensively on aligning all activities with the entity's six (6) strategic priorities. Securing sustainable funding (Strategic Priority 1) remains a key focus for Casidra and, as such, much effort is placed on identifying and engaging new clients (Strategic Priority 6). A Strategic Planning session was held during the financial year where Casidra's Board and Management engaged several strategic stakeholders on potential areas of collaboration. Attendees included Wesgro, Cape Town Tourism and the HODs of the Western Cape Departments of Agriculture, Transport and Public Works, and Economic Development and Tourism. During the period under review, Casidra also signed MOUs with CapeNature and the South African Wine Industry Transformation Unit (SAWITU) while fostering closer relationships with the Garden Route District Municipality and Mossel Bay Local Municipality.

The Project Management unit prioritised the completion of projects of previous years for the Western Cape Department of Agriculture in line with Strategic Priority 2 (World-class Service Delivery). As a result, the unit has made significant inroads into the completion of a large number of these "older" projects and anticipates that the majority of the CASP projects (2020/21 and older) will be completed and removed from the system by the end of the 2023/24 FY.

The Chief Executive Officer, Dr Keith du Plessis, who took office in June 2022, has brought much-needed stability to the organisation. His first and foremost task was to ensure that the financial losses incurred in previous years were not repeated, a task in which he largely succeeded.

Two Board members, Mr Marius Wüst and Ms Thando Moutlana, resigned during this FY. Their positions on the Board will be filled at the next AGM in August 2023.

In the coming year, **Casidra** will implement the integration of its IT systems (Strategic Priority 3) in an attempt to streamline business and operational activities. This measure will ensure the centralisation of enterprise data and improve communication throughout the business.

### Acknowledgements / Appreciation

I would like to thank the **Casidra** Board of Directors for their vote of confidence in me over the past number of years. Your strategic leadership and commitment towards **Casidra** have assisted the entity in meeting its objectives in support of rural development.

On behalf of the Board and Management, I also wish to extend my gratitude to our Shareholder, represented by Minister Ivan Meyer, as well as to Dr Mogale Sebopetsa, Head of the Western Cape Department of Agriculture, and his team, for the constructive manner in which **Casidra** has been engaged and supported.

I want to express my sincere appreciation for the hard work and dedication shown by the management and staff of **Casidra** who continue to demonstrate commitment and passion in making a difference in the lives of the rural communities we serve.

### Conclusion

In our quest to be a catalyst for growth towards self-sustainable communities, I want to encourage everyone with a heart for the development of a vibrant rural economy to partner with **Casidra** and to use our service and solid project management capabilities to bring hope where there is often very little to none.

Prof. Johann Kirsten Chairperson Casidra SOC Ltd 24 August 2023

### PART A: GENERAL INFORMATION CHIEF EXECUTIVE OFFICER'S OVERVIEW

The 2022/23 financial year (FY) has been a year of steadying, New or proposed key activities recovery and renewal for Casidra. After significant financial losses over the past number of years, the entity showed resilience and ended the FY in a near breakeven position. During the financial year, we kept operating costs as low as possible without impeding our ability to deliver on our core mandate. The team successfully implemented systems and procedures ensuring the efficient and effective delivery of projects, thereby improving the entity's income-generating capabilities.

In support of our vision to be a catalyst for growth towards selfsustainable communities, Casidra has implemented thousands of Community and Household Food Security projects, provided Disaster Management Funds to distressed farmers, supported small-farmers with Financial Record-keeping services and supplied beneficiaries with boreholes, water tanks and access to solar power.

### General financial review of the public entity

Casidra's total revenue for the period under review was R239million.Inthisregard,fundsfor**Casidra**'s operations (R32million inclusive of VAT) and for the implementation of various projects (R200 million) were received from the WCDoA. The remaining funds were generated from other funders and own revenue streams.

### Spending trends of the public entity

Casidra's general spending patterns remain consistent in relation to those of the previous years with the inclusion of project employee costs, which were recouped and reflected as part of revenue. Savings were realised as a result of vacant positions that were not filled during the review period. However, savings were offset by overspending on electricity costs, driven mainly by the increase in diesel costs for the generator as a result of loadshedding.

Overspending on consulting services was due to the appointment. The entity maintained effective Supply Chain Management of service providers to implement a Project Management Maturity Assessment and the Company Secretarial duties respectively Capital expenditure was reduced due to budget and cash flow constraints.

### Capacity constraints and challenges facing the public entity

The key challenge facing Casidra remains its struggle to generate additional income. In addition, capacity to pursue sustainable alternative funding streams through Business Development initiatives is constrained by the entity's limited financial resources.

### Discontinued key activities

None of Casidra's programmes were discontinued during the period under review, as they remained relevant and aligned with both national and provincial priorities.

Casidra has made adjustments to its Programmes, with Programmes 2 and 3 now solely focussing on projects and programmes of the WCDoA. These adjustments emphasise supporting Casidra's commitment to our Department in the delivery of its mandate.

In our quest to ensure a financially sustainable future for Casidra, a major focus will be to provide project implementation support to provincial departments and municipalities in the Western Cape. Programme 4 will accommodate projects and programmes delivered for clients other than the WCDoA. During the FY, Casidra signed MoUs with CapeNature and the South African Wine Industry Transformation Unit (SAWITU). In addition, the Mossel Bay Local Municipality Council resolved that Casidra be appointed to implement an urban agriculture project within one of its municipal wards over the next two years.

### Requests for rollover of funds

Most of the projects are being implemented on a multi-year basis, which is largely due to the seasonal nature of agriculture and the implementation timelines agreed to with emerging farmers. Casidra has a continuous rollover of funding for various programmes, including the Comprehensive Agricultural Support Programme (CASP), Disaster Management Relief Funds, Market Access and Financial Record-Keeping Programmes.

### SUPPLY CHAIN MANAGEMENT

### Concluded unsolicited bid proposals for the year under review

There were no unsolicited bid proposals for the year under review.

### Whether SCM processes and systems are in place

systems

### Challenges experienced and how they are resolved

During the reporting period, Casidra reconfigured its SCM unit to ensure the segregation of duties between the SCM and Project Management units. The SCM unit was strengthened by allocating and training additional human resources.

### Audit Report matters in the previous year and how it will be addressed

The Auditor-General of South Africa highlighted material misstatements in the 2021/22 Annual Performance Report submitted for auditing. To address this, Casidra developed and implemented a new standard operating procedure (SOP) to ensure the reliability of the reported performance information. Furthermore, additional staff members were allocated and trained to assist the internal compliance team in ensuring that all submitted reports were compliant.

### Outlook/ Plans for the future to address financial challenges

**Casidra** is engaging other Western Cape provincial I ack departments and agencies, municipalities, NGOs, NPOs and from other private sector partners to provide project management Profes and procurement-related services in order to supplement the entity's revenue streams.

A concerted effort was made to reduce the number of active projects from previous financial years from the project pipeline system.

### Events after the reporting date

There were no significant events after the reporting date.

### **Economic viability**

Casidra operates in an environment where economic realities and social challenges are becoming increasingly apparent. In the year under review, Casidra delivered in excess of 4200 CASP, community and household food security projects on behalf of the WCDoA. Furthermore, Casidra, together with its implementing partners, cleared approximately 70 ha of alien invasive biomass along the Berg River while partnering with the Breede-Gouritz Catchment Management Agency (BGCMA) to deliver water tanks to beneficiaries, contributing to water security

When analysing Casidra's impact on the beneficiaries and communities it serves and considering the positive socio-economic and environmental impacts linked to the projects and services delivered by the entity, there is little doubt that the benefits of Casidra's activities exceed the costs.

### Acknowledgement

I acknowledge, with gratitude, the guidance received from **Casidra**'s Board of Directors, its Chairperson, Professor Johann Kirsten, and the various Board Committees.

I want to thank our Executive Authority, Minister Ivan Meyer, for his guidance and Dr Mogale Sebopetsa and the entire Senior Management team at the Western Cape Department of Agriculture for their full support and contributions.

Special thanks to the Standing Committee on Agriculture, Environmental Affairs and Development Planning for their recommendations and encouragement.

Finally, I would like to convey my sincerest appreciation to all **Casidra** staff for their dedication and commitment during the past year.

Dr Keith du Plessis Chief Executive Officer Casidra SOC Ltd 24 August 2023

### PART A: GENERAL INFORMATION

STATEMENT OF RESPONSIBILITY AND CONFIRMATION OF ACCURACY FOR THE ANNUAL REPORT

To the best of our knowledge and belief, we confirm the following:

All information and amounts disclosed in the Annual Report are consistent with the Annual Financial Statements audited by the Auditor-General of South Africa.

The Annual Report is complete, accurate and free from any omissions.

The Annual Report has been prepared in accordance with the guidelines in the Annual Report as issued by National Treasury.

The Annual Financial Statements (Part F) have been prepared in accordance with the GRAP standards applicable to the public entity.

The Accounting Authority is responsible for the preparation of the Annual Financial Statements and for the judgements made in this information.

The Accounting Authority is responsible for establishing and implementing a system of internal control, which has been designed to provide reasonable assurance as to the integrity and reliability of the performance information, the human capital information and the Annual Financial Statements.

The external auditors are engaged to express an independent opinion on the Annual Financial Statements.

In our opinion, the Annual Report fairly reflects the operations, performance information, human resources' information and financial affairs of the public entity for the financial year ended 31 March 2023.

Yours faithfully

Dr Keith du Plessis
Chief Executive Officer

24 August 2023

Prof. Johann Kirsten Chairperson of Board 24 August 2023 **VISION** 

To be the catalyst for growth towards self-sustainable communities

**MISSION** 

To maximise agricultural and economic development opportunities in rural communities through project management excellence.

### **VALUES**

### Integrity:

We act in an ethical manner with trust, honesty, reliability and credibility

### Professionalism:

We deliver excellent work with a positive attitude by well-skilled people using best practice in a business-like approach

### Caring:

We want the best for our customers and staff, and treat them with respect and empathy, whilst embracing diversity

### **Development-driven:**

We add value to people and business to ensure sustainable growth

### Innovative:

We strive to seek better and lasting solutions

### PART B: PERFORMANCE INFORMATION

# PART B: PERFORMANCE INFORMATION AUDITORS' REPORT: PREDETERMINED OBJECTIVES SITUATIONAL ANALYSIS: SERVICE DELIVERY ENVIRONMENT

The AGSA currently performs certain audit procedures on the performance information to provide reasonable assurance in the form of an audit conclusion. The audit conclusion on the performance against predetermined objectives is included in the report to Management, with no material findings being reported under the Predetermined Objectives' heading in the Report on other legal and regulatory requirements' section of the Auditor's Report.

Refer to pages 53 to 56 of the Report of the Auditors' General, published as Part F: Financial Information.

### SITUATIONAL ANALYSIS: SERVICE DELIVERY ENVIRONMENT

Casidra established itself as a proficient project implementation company mainly servicing the Western Cape Department of Agriculture (WCDoA), its institutional funder. Services are also rendered to other Provincial Departments, Government entities and the private sector. The Company executes its mandate in an agricultural and economic development setting, and is mandated to provide these services particularly in the rural areas of the Western Cape.

The strategic focus for **Casidra** in the 2022/23 financial year included the following specific areas:

- Delivering project management excellence on the Programmes of our key partner, namely the Western Cape Department of Agriculture.
- Sustainable management of the two Government farms, namely Amalienstein in Zoar near Ladismith and Waaikraal in Dysselsdorp near Oudtshoorn, as well as the implementation of the Turnaround Plans once approved and financed to successfully hand over the farms to community entities.
- Facilitation of successful Land Reform projects within the Western Cape Agricultural Sector and aligned with Casidra's mandate.
- The diversification and growth of the revenue and funding base through the development of commercial partnerships that support and are aligned with Casidra's mandate.
- To successfully deliver on economic development and green economy projects that positively impact on job creation, entrepreneurial growth, poverty alleviation and rural development in collaboration with partners across the spectrum of the private sector, public sector and NGOs.
- To maintain our project management centre of excellence capability available to other Departments as a costeffective implementation partner.

### AGRICULTURE AND LAND REFORM PROGRAMME

### MANAGEMENT OF GOVERNMENT FARMS

Casidra continued to manage the Waaikraal and Amalienstein farms on behalf of the WCDoA. The management agreement between the WCDoA and Casidra is until 2025 when hopefully the farm will be handed over to the local community structures. The Institute for Justice and Reconciliation (JJR) has been contracted to engage the communities' structures to get their buy-in for the Turnaround Plans.

The strategic focus for the two farms, namely Amalienstein and Waaikraal, is to get them to become profitable and sustainable before being transferred to the relevant beneficiaries or communities.

These farms are currently unsustainable due to limited resources. Given the fact that the farms are in transition, new ventures cannot be instituted to extend their current activities.

At Waaikraal, the water situation improved. The farming activities included mostly lucerne and onion seed production. The latter was negatively impacted by a hailstorm in December 2022, while loadshedding negatively impacted irrigation cycles limiting the lucerne production.

At Amalienstein, the main activity is the management of a dairy and the planting of pastures to provide fodder for feed. Additionally, onion seed was also successfully planted and harvested. The thatched roof of the offices requires urgent attention and needs to be repaired.

Despite the challenging financial position of the farms, no staff lay-offs were considered. The farms provide employment to 32 permanent staff and 67 seasonal workers, thus playing an important role in the local economies.

Amongst some of the challenges encountered are theft and vandalism, which are most prevalent on both farms, but are being addressed as best as possible. At Amalienstein, stray animals remain a challenge. Regular engagement with the local community is held to address this matter.

The farms are managed and maintained as best as possible under difficult circumstances.

### **CASP** and Ilima Letsema Projects

The CASP and Ilima Letsema funded projects remain important as part of the range of projects being implemented by **Casidra**. The funding provided to smallholder farmers for production inputs, mechanisation and infrastructure is an important stimulus to propel farmers to become fully fledged commercial farmers.

**Casidra** remains fully aware of the multiple factors that impact the success of any farming operation.

The rise of production input costs with the challenges related to electricity has had a negative impact on smallholder farmers. Factors further complicating farming activities are everchanging market requirements and weather patterns.

The transition to commercial farmer status, therefore, requires that a combination of critical success factors be in place. These include, amongst others, technical skills, business acumen, support service, market access, funding and financial support.

The approval of CASP and Ilima Letsema grant applications are done through a very thorough evaluation and approval process. Commodity Project Allocation Committees (CPACs) are responsible to approve projects for recommendation to the Departmental Project Allocation Committee (DPAC). Casidra is the Secretariat for the various CPACs and ensures that all processes follow the agreed Terms of Reference (ToR) for CPACs. Both the CPACs and the DPAC consist of industry experts, WCDoA officials, the Casidra Secretariat and Scribe.

A final list of recommended projects is approved annually by the DPAC for presentation to the National Department of Agriculture for funding.

In the year under review, a substantial number of farmers were supported across the following commodities: Wine grape, Table grape, Vegetables, Ruminants, Grain, White Meat, Aquaculture and Agri-processing.

### Unit for Technical Assistance (UTA)

The UTA's main function is to provide technical assistance to the commodity enterprises as part of the application for assistance process for CASP and Ilima Letsema funding.

The UTA's purpose is to promote and support sustainable agrarian reform. The main function of the Unit is to provide technical assistance to the agricultural industry to satisfy a need which has been lacking since the creation of the commodity enterprises as part of the new application for assistance process. The UTA supports the WCDoA and Commodity groups who receive applications for financial support from smallholder farmers.

# PART B: PERFORMANCE INFORMATION SITUATIONAL ANALYSIS: SERVICE DELIVERY ENVIRONMENT

The UTA provides support to the DPAC or CPAC when funding applications are submitted, but compliance issues prevent these committees from approving funding. In these cases, the DPAC or CPACs request the UTA to provide support. The UTA facilitates and addresses issues related to, amongst others, EIAs, lease agreements, water rights and ownership arrangements.

In matters where legal counsel is required for either the DPAC or CPACs, this is referred to legal professionals through the UTA.

Additional funding was allocated to facilitate the drilling of boreholes and the installation of solar panels on farms where access to clean water and reliable electricity remains a challenge.

### Land Reform Advisory Desk (LREAD)

Casidra's Land Reform Advisory Desk (LREAD) is part of the UTA with the main purpose to provide assistance to black farmers who would like to access land and commercial land owners who want to sell land in a transaction that will support agricultural transformation. This is to help facilitate change in the land ownership demographics in the Province.

The LREAD does not provide any funding, but renders support to black farmers who want to buy land for their farming activities.

The LREAD will assist by co-ordinating with the various support structures in the Province and where applicable nationally, to help conclude viable land reform transactions.

### RURAL INFRASTRUCTURE AND POVERTY ALLEVIATION PROGRAMME

### Community and Household Food Security Programme

This Programme continued to support community and household gardens with basic garden tools and production inputs during the 2022/23 financial year.

With an unemployment rate of over 30% and youth unemployment rate at more than 50% in South Africa, the importance of this Programme to address the basic need for food and sustenance cannot be emphasised more.

This Programme has gone beyond the call of duty to support households and community gardens. During this financial year, 3972 Household Food Security projects and 230 Community Food Security projects were implemented by **Casidra** and the WCDoA.

### **Disaster Management Funds**

Natural disasters have a devastating impact on the livelihoods of people. The agricultural sector normally experiences the impact of natural disasters first-hand, which include drought, fires and flash floods. Climate change driven by global warming has led to unpredictable and extreme weather patterns. In the financial year under review, Casidra played an integral role in the rollout of the Disaster Management grants to drought-stricken farmers through fodder support to feed livestock. In this financial year, R71,8 million was received and 100% spent.

### Alien Clearing Programme

Casidra continued with the Alien Clearing Programme for the DEFF until the end of the financial year under review. The Clearing Programme focuses on alien eradication and control in the riparian zone along riverbanks of the Berg River, specialised clearing and wetland protection activities.

Alien clearing helps restore and protect natural ecosystems which are essential to increase water quality and quantity for farming practices.

### Breede-Gouritz Catchment Management Agency (BGCMA)

The BGCMA is responsible for water resource management within the Breede-Gouritz Catchment Management Area. The BGCMA plays a pivotal role in protecting, using, developing, conserving, managing and controlling water resources in a cooperative manner.

Casidra has supported households identified by the BGCMA, with water harvesting infrastructure. In partnership with BGCMA, Casidra was able to roll out 400 water tanks in rural communities in the Western Cape.

### **Mechanisation Programme**

Casidra continued to administer the Mechanisation Programme funded by the National Department of Agriculture. A total number of 72 tractors and mechanisation equipment were allocated to 67 smallholder farmers in 2013. Casidra is currently facilitating the process of transferring these assets to the beneficiaries and mechanisation centres to ensure that full responsibility is taken for licencing and maintenance of the tractors.

### Further Education and Training (FET)

Further Education and Training responds to the WCDoA Strategic Goals, Provincial Strategic Objectives and National Outcomes to address job creation through skills development.

**Casidra** facilitated and supported a number of FET and Vocational Training Programmes that develop key capabilities and skills among the people involved particularly in the rural towns to build social security and economic growth.

The training service providers were contracted according to the needs identified to train, mentor and upskill project beneficiaries and other role-players. The number of individuals trained was less than anticipated due to the non-responsiveness of certain bids and the in-sourcing of training by the WCDoA.

**Casidra** and the WCDoA are considering how to address the lack of suitably qualified training providers who submit bids.

### LOCAL ECONOMIC AND BUSINESS DEVELOPMENT PROGRAMME

### Financial Record-Keeping Programme (FRK)

During the 2022/23 financial year, Casidra continued with the implementation of the Financial Record-Keeping Programme that supported emerging farmers across the Western Cape with bookkeeping support and financial literacy training. The Programme managed to support approximately 39 emerging farms. Working in close collaboration with the Agricultural Economist at the WCDoA, the team of accountants and bookkeepers deliver vital accounting and other services to smallholder farmers, which support their business growth.

### **Entrepreneur Support Fund (ESF)**

Casidra planned to implement the ESF to support microenterprises across the Western Cape, but no funding was received from the DEDAT and, therefore, the ESF programme could not commence as planned.

However, Casidra received funding from SAWITU to support of one wine farmer. Alternative funding opportunities are being investigated to reactivate and grow this Fund.

### Market Access Programme

During the 2022/23 was financial year, **Casidra** facilitated the international and domestic market access for smallholder entrepreneurs and CASP beneficiaries within the agricultural sector.

This Programme enables black businesses to access markets through trade missions and shows where South African produce is showcased.

Two of the major events for which promotional activities and travel were funded was for the Food and Hotel Asia exhibition and the Fruit Logistica Study Tour to the Netherlands and Berlin. Compliance and the related technical support were also granted for SA-GAP and global GAP registration.

# PART B: PERFORMANCE INFORMATION SITUATIONAL ANALYSIS: ORGANISATIONAL ENVIRONMENT

### CHALLENGES EXPERIENCED BY THE INSTITUTION

**Casidra** has a positive track record of delivering excellent services to our stakeholders spanning over many years. In order to maintain the ability to deliver on our mandate, we need to address a number of key internal and external limiting impediments.

Casidra's funding mix is still heavily reliant on the annual core funding allocation. The utilisation of the 3D status as a public entity to generate additional revenue is a key focus going forward. Given the multiple priorities, the State fiscus is under tremendous pressure. Casidra continued to explore the expansion of partnerships with State and private entities to augment the current income streams.

The integration of IT systems in **Casidra** remains a key priority. This will improve our ability to maintain the Company's track record of delivering excellent project management services to our clients.

The eradication of delayed projects remained a key priority for **Casidra**. These are delays due to unforeseen circumstances such as notarial deeds' registrations, environmental impact assessments, PFMA processes, etc. and are required for compliance that cannot be bypassed. Significant progress has been made in the year under review to complete delayed projects.

Casidra's positioning in the market as a key partner to envision, design and implement developmental projects for both the public and private sectors, has to be built on and developed further. Management had various engagements with other entities to gauge the appetite and opportunities for partnership in key service delivery areas. These engagements are bearing positive results with a number of agreements already concluded.

### SIGNIFICANT DEVELOPMENTS DURING THE YEAR

The performance of **Casidra**'s strategic outcome-oriented goals in 2022/2023 was informed and aligned to the Medium-Term Strategic Framework (MTSF) Priorities and Provincial Vision Inspired Priorities as well as Ministerial Key Priorities. The Board and Management further developed the six top strategic priorities to implement during this financial year.

Casidra has become the leading partner and catalyst in the battle against poverty and inequality in many of these rural areas, which are mainly characterised by a lack of resources as well as suitable financial, institutional and developmental support. Considering the fact that resources for stimulating economic development in rural areas are generally not as abundantly available as in the urban areas, Casidra strives to lobby the public and private sectors as broadly as possible, to partner and assist in these areas in order to optimise opportunities.

We have positioned ourselves as an important role-player in the implementation of Government funded projects, especially when considering the following:

- The recognition of Government that rural development is important enough to retain a separate focus on it.
- That capacity and project management resources for stimulating economic development and job creation as well as the practical implementation of projects in rural areas are generally limited.
- The ability of Casidra to move quickly and be adaptable in an environment that is constrained by cumbersome supply chain regulations, reporting and compliance requirements and limited resources as well as hands-on project implementation abilities.

Casidra actively aligned itself and prioritised the following four themes of the Western Cape Recovery Plan:

- COVID-19 RECOVERY: The pandemic will be with us for the foreseeable future; existing measures must continue and new ones put in place to deal with disruptions to the economy and service delivery.
- JOBS: The economic impact of COVID-19 has been severe.
   We can only recover if our economy grows and our citizens generate an income.
- WELLBEING: Government must ensure that the basic human needs of our citizens are realised, as guaranteed in the Constitution.
- SAFETY: This is the overarching theme for the Provincial Strategic Plan, and it is equally relevant going forward. It is inextricably linked with wellbeing, as safety cannot be achieved if basic human needs are not met.

A concept that is central to the above themes is dignity. The citizen is at the centre of everything that we do, and what we deliver and how we deliver must uphold the dignity of every individual, household and community.

### ORGANISATIONAL ENVIRONMENT

In our quest to foster a winning culture, **Casidra** recognises that the future success of the Company depends on a productive workforce where employees are well motivated to do their jobs individually and within teams.

The Human Capital unit developed an anonymous employee engagement survey to measure the general perception of the culture within the organisation, which is being rolled out biannually to continuously measure the progress in this regard.

Management's approach is to listen to employees and encourage open and transparent dialogue where we motivate one another, show care, have frank conversations and hold each other accountable when needed.

Management is also intent on ensuring that equity (fairness and impartiality) is continuously addressed in the workplace and is looking at the topic from various angles, namely

- the even distribution of workload amongst our employees,
- the procurement of goods and services from more blackowned companies and
- the prioritisation of the work that the Employment Equity Committee promotes within Casidra.

During this year, **Casidra** implemented efficiencies in order to reduce risks in Supply Chain Management (SCM) and a clear segregation of duties between Project Management and SCM functions was introduced. Several employees were identified and engaged for assistance in strengthening this crucial function. The identified employees received the required training to successfully function within their new roles, which comes into effect in the new financial year.

Casidra recognises that employee wellbeing is a multifaceted concept and each employee's preference is unique. Our employees have access to an integrated wellness platform, namely ICAS, that offers the following services to enhance their wellbeing:

- Psychological Support
- Clinical Support
- Trauma Support
- Life Management Services
- Accessing Healthcare Support
- Trauma Counselling
- Managerial Support Services
- Legal Support Services
- Financial Information/Debt
- Face-to-Face Counselling
- Telephone Counselling

# PART B: PERFORMANCE INFORMATION SITUATIONAL ANALYSIS: ORGANISATIONAL ENVIRONMENT

During the year, we also introduced wellness champions from the various departments within **Casidra**. These wellness champions partner with the HC team in building relationships and encourage personal value creation in the various programmes we offer.

By integrating the various aspects of wellbeing, employees can cultivate a holistic approach to their overall health and lead more fulfilling lives, which ultimately affects productivity.

Our employees aspire to work in a safe and healthy working environment. **Casidra** adheres to the requirements of the Occupational Health and Safety Act (Act No. 85 of 1993), and procedures for health and safety form part of the Personnel Policy as well as the induction process for new entrants.

Casidra wants to earn and maintain the trust of its employees and the society in which it operates. The Company will do so by promoting and protecting the environment and people's health. Our philosophy is, 'what is good for the environment is also good for ourselves', whether at home or at the office.

The health and safety of our employees remain our top priority, and prevention is the cornerstone of our response. In terms of COVID-19, we ensure that all protocols in place are being observed. Our offices are equipped with necessary PPE and we continue to create awareness amongst our employees.

We continuously implement strategies and actions to reduce the carbon footprint of **Casidra**. We encourage employees to identify simple changes in their daily operations that contribute towards better business. These changes can entail anything from cost optimisation projects to internal processes that can be mapped more efficiently.

**Casidra**'s Board has also identified commercial partnerships as a Strategic Objective that seeks to broadly achieve the following:

- Diversification of funding sources
- Growth and diversification of revenue base/mix
- Growth in economic and rural development projects.

This strategy seeks to build upon **Casidra**'s existing project management excellence and successful track record of delivery, and make a greater impact on the agricultural and economic development ecosystem for the region.

The commercial partnerships will be formalised and mutually beneficial to the parties, and will fully support the successful achievement of **Casidra**'s mandate. This may also include agricultural financing partnering with development finance institutions and an Enterprise Development Fund in which corporates could participate strategically as funders.

This, in turn, offers them optimisation of their B-BBEE scorecard points. The Enterprise Development Fund will support various business support services to emerging and black commercial farmers to become more sustainable over the medium to longer term.

KEY POLICY DEVELOPMENTS AND LEGISLATIVE CHANGES

None.

	STRATEGIC GOAL 1					
Strategic Outcome Oriented Goal 1	Casidra to provide project management services to the Western Cape Department of Agriculture to achieve their goals					
Goal Statement	Casidra supported the WCDoA with the disbursement of its funds from the CASP/llima Letsema Programme. The Company continued striving to provide improved project management services through the acquisition, effective management and timeous disbursement of these funds.					
	Beneficiaries of these funds are largely black commercial and smallholder farmers. Their projects' business plans were submitted, assessed and awarded project funds once approved via the Commodity Project Allocation Committees (CPAC). As the secretariat, <b>Casidra</b> handled the administrative component of these CPACs, which serve the nine commodities that the WCDoA supports in the Western Cape.					
	Once funds were allocated, <b>Casidra</b> , along with external invitees, brought their product knowledge, marketing experience, project management skills, administrative skills and financial acumen to ensure the successful outcome of all approved projects.					
	the WCDoA focused on the citizen-facing role in preparing the institutional environment for the implementation of these approved projects, and <b>Casidra</b> focused on the implementation of preapproved National and WCDoA identified projects by offering its project management services.					
	Agricultural transformation is imperative in changing historical ownership patterns of land, lives and crop systems, but this was done in an economically viable and sustainable manner for I small and large agricultural operators – whether they are involved in production, agro-process co-operatives, activities in the value chain, marketing or even exporting.					
	The facts are clear: agriculture in the Western Cape has been the mainstay of the provincial economy since the onset of the COVID-19 pandemic. Keeping businesses alive, saving and creating jobs, earning foreign exchange and growing agriculture in the Western Cape and Casidra's goal, as any other private or public enterprise involved in the sector, was to ensure that the Western Cape economy survives and thrives.					
	Casidra continued to manage the two state-owned farms (Waaikraal and Amalienstein) based on the provision of funds to implement the farms' Turnaround Plans.					
	This will be done successfully before handing the farms over to the rural communities destined to own them in future.					
	Casidra managed Disaster Relief funds for the WCDoA when it came to floods, fires and drough matters. The Company's in-house engineers managed complex river construction projects (groyne and weirs) to minimise the damage of floods. Casidra also continued to offer these specialise services for rural communities in the niche market in which they operated.					
	Casidra was proactive in the use of technology in order to secure more water and to improve the health and safety of those living in the communities in the Western Cape. The implementation of projects in the riparian zones of the Province, namely alien vegetation clearing, water saving and river engineering works, were priority projects.					
Link to Priorities	Link to MTSF: Link to VIP: Link to MKP: Link to MKP: Link to Our SP: Link to RP: Priority 2 - Economic transformation and job creation Priority 2 - Economy and Jobs Priority 3 - Farmer support (smallholder and commercial) Priority 2 - World class service delivery Link to RP: Jobs, Safety and Wellbeing					

	STRATEGIC GOAL 2								
Strategic Outcome Oriented Goal 2	Casidra is to facilitate local economic and business development initiatives in predominantly rur areas								
Goal Statement	The importance of timeous Government interventions and the application of appropriate policies to sustain rural economic development - particularly for resource-poor farmers in rural South Africa, were prioritised. <b>Casidra</b> has created an enabling environment for economic development for farmers in the Western Cape. The major interventions that <b>Casidra</b> offered are:								
	<ul> <li>Improving farmers' skillsets through training and mentoring.</li> <li>Affording farmers access to a full range of business development services. For example, our Financial Record-Keeping (FRK) division helps 50 emerging farmers manage the financial affairs of their farming businesses every month.</li> <li>Helping farmers access a variety of local and overseas markets for their products.</li> <li>Facilitating access to finance from the public sector (including municipalities) and the private sector for further developing of their businesses.</li> <li>Engaging with the relevant institutional players to develop the rural infrastructure so necessary for the success of these farmers. This includes co-ordinating various role-players for the provision of water, sanitation, electricity and roads.</li> <li>Identifying and helping farmers capitalise on sustainable livelihood projects.</li> <li>Providing business intelligence (information) to small farmers and entrepreneurs as a catalyst for economic growth and job creation.</li> <li>Promoting green initiatives at every turn to ensure the sustainability of these farmers' businesses.</li> <li>Keeping rural communities food secure. For example, Casidra's Food Security unit ensures that vegetable gardens are established at schools, churches and individual homes to provide sufficient and nutritious vegetables for consumption, especially in these tough economic times.</li> <li>Casidra's role has been to foster a holistic approach to rural agriculture for its beneficiaries. The Company has done this by ensuring that the political, economic, social, technological, legal and environmental issues were addressed to optimise the success of their businesses.</li> </ul>								
Link to Priorities	Link to MTSF: Priority 2- Economic transformation and job creation  Link to VIP: Priority 2- Economy and Jobs  Link to MKP: Priority 2- Market access and international opportunities  Link to our SP: Priority 2- World class service delivery  Priority 4- Winning culture  Priority 6- Stakeholder engagements  Link to RP: Jobs, Safety and Wellbeing								

		STRATEGIC GOAL 3							
Strategic Outcome Oriented Goal 3	<b>Casidra</b> is to manage resources and ensure good corporate governance to consistently achieve unqualified audit report								
Goal Statement	is capacitated to service to its share The Company's si	Because <b>Casidra</b> is ultimately judged by its service delivery levels to its stakeholders, the organisation is capacitated to deliver an efficient (cost-effective) and effective (goal-orientated) administrative service to its shareholder and clients in particular.  The Company's support services, namely finance, human capital, public relations, IT, communication and general administration, have on fire to produce the desired results for its stakeholders. <b>Casidra</b>							
	view - all the while Sustainability of the team. <b>Casidra</b> 's conformed by the Report. <b>Casidra</b> h	s while being optimally capacitated from a human capital and financial point of e retaining its best staff.  The organisation is of primary concern to the Board of Directors and its management corporate governance, Board and various Board Committees are organised and requirements of the relevant legislation and the recommendations of the King IV has a strong ethical trade portfolio where integrity of business dealings and care for							
	the environment, including the safety of all with whom they came into coparamount importance.								
Link to Priorities	Link to MTSF: Link to VIP: Link to MKP: Link to our SP: Link to RP:	Priority 1- Building a capable, ethical and developmental State Priority 5- Innovation and culture change Priority 5- Climate change (innovation, technology, partnerships) Priority 4- Winning culture COVID-19 Recovery							

	STRATEGIC GOAL 4						
Strategic Outcome Oriented Goal 4	Casidra is to develop and implement its Development Model by 2024, by engaging more widely with the public and private sectors						
Goal Statement	Casidra's current deliverables were built around:  Project management capabilities  Efficient governance structures  Efficient financial systems  A competitive advantage due to a business-oriented model  A proactive culture in responding to needs						
	In the past, Casidra's clients were mostly limited to the WCDoA, the Department of Economic Development & Tourism (DEDAT), and the Department of Forestry, Fisheries and the Environment (DFFE), with deliverables to individual beneficiaries run by these Departments through specific programmes. Based on its track record, skills and staff composition, Casidra has been able to market its services to other Government Departments and the private sector. Casidra developed a blueprint in developing and implementing developmental initiatives in the rural areas of the Western Cape, and used this blueprint on a wider scale.						
	Casidra has reached out and capacitated community role-players to enable them to implement results-driven development initiatives. The Company focused on strengthening its public and private partnerships to develop additional revenue streams so that additional development opportunities can be rolled out.						
Link to Priorities	Link to MTSF: Link to VIP: Priority 2- Economic transformation and job creation Priority 2- Economy and Jobs Link to MKP: Priority 2- Market access and international opportunities Priority 6- Stakeholder engagements Link to RP: Jobs, Safety and Wellbeing						
	STRATEGIC GOAL 5						
Strategic Outcome Oriented Goal 5	Casidra is to maintain and expand its project management reach by continuous human capital upskilling and the modernisation of its IT infrastructure and applications						
Goal Statement	Casidra endeavoured to 'sharpen its saw' by ensuring that it continuously improves project management standards in the field. It focused on doing two things to achieve this.						
	The Company trained and upskilled its staff to become a continuous learning organisation to meet the needs of the fast-changing environment in which it operates. <b>Casidra</b> has endeavoured to deliver a good service by focusing on the human capital development side of its business. Skills development has been central to economic development and to the ongoing support of agritraining in line with our Ministerial priority.						
	Casidra has been finding ways in order to modernise its entire IT infrastructure to support improved service delivery in the field. Some employees have been empowered to work from anywhere and to speedily generate insightful business intelligence to further deliver improved project management services to its constituencies.						
Link to Priorities	Link to MTSF: Priority 2- Economic transformation and job creation Link to VIP: Priority 3- Empowering people Link to MKP: Priority 1- Structured education and research Link to our SP: Priority 2- World class service delivery Priority 3- Integrated IT systems Priority 4- Winning culture Priority 5- Equity in the workplace Link to RP: Jobs, Safety and Wellbeing						
Strategic Outcome Oriented Goal 6	Develop and grow new markets on a cost-recovery basis aligned to the commercial partnerships' strategy						
Goal Statement	Casidra SOC Limited held interventions during the year to proactively market its services to other development agencies, Government Departments, state-owned enterprises, municipalities and the private sector. The Company aims to reach out to international donor agencies to further its implementation capability. To ensure its own future sustainability as an organisation, Casidra planned to identify and develop widespread funding sources that will allow it to spread its income risk as well, particularly in the early, post-COVID-19 era.						
	An external funding drive is in process while simultaneously servicing its existing shareholder's needs - and its clients' needs - without compromising its service levels. <b>Casidra</b> 's focus remained for the time being on the Western Cape, and is exploring extending its service delivery reach and become a service provider of choice to Provincial and National Government institutions.						
Link to Priorities	Link to MTSF: Link to VIP: Link to MKP: Link to our SP: Priority 2- Economic transformation and job creation Priority 2- Economy and jobs Priority 2- Market access and international opportunities Priority 1- Sustainable funding Priority 4- Winning culture Priority 6- Stakeholder engagements

### PROGRAMME PERFORMANCE

### Sub-Programme 1.1: Corporate Governance

Casidra continued to deliver an efficient and effective service in compliance with best practice in corporate governance. All of Casidra's corporate governance actions in the way in which the Board and its committees are organised were met. This included the statutory publications which were compiled and submitted on time.

### Sub-Programme 1.2: Financial Management

This Sub-Programme ensures compliance with all relevant financial statutes and regulations, notably the Public Finance Management Act and the Companies Act. All statutory reporting deadlines were met.

### Sub-Programme 1.3: Human Capital Management

This Sub-Programme provides support services to drive productivity, engagement and business value, whilst ensuring employee wellbeing and sound labour relations within Casidra. A fully optimised employee structure is maintained.

### Sub-Programme 1.4: Strategic Training

This Sub-Programme ensures that strategic training is conducted to meet the Company's current and future requirements and to enable employees to realise their full potential.

### Sub-Programme 1.5: Public Relations, Marketing and Communications

During this financial year, we continued to promote the Company brand and create awareness to external stakeholders through various activities which includes media, exhibitions, seminars, events, etc. Furthermore, we used online/digital platforms for the marketing and promotion of the Company and its services to ensure that communication reaches internal and external stakeholders effectively and efficiently.

Our Company's corporate brand identity was continuously monitored to drive advocacy and lobbying to be an integral part for sourcing new business for the Company.

None.

### PROGRAMME 2: AGRICULTURE AND LAND REFORM

### PURPOSE

- To manage Government farms (Amalienstein and Waaikraal) and implement the Turnaround Plans to prepare for transfer to community entities.
- To ensure a sustainable support mechanism for new and established farmers including land reform beneficiaries and farm workers.
- To facilitate access to land through the UTA and LREAD by crafting plans to ensure sustainable land reform.

# PART B: PERFORMANCE INFORMATION PROGRAMME PERFORMANCE

### Sub-Programme 2.1: Management of Government Farms

This Sub-Programme aims to provide farm management capacity to two identified Government owned farms in the Western Cape and manage them according to the best practices in the industry to achieve targets set in the budget and to implement the Turnaround Plans when approved, agreed to by the respective communities and funding is made available.

Amalienstein is a dairy farm with irrigated pastures and lucerne, and produces some onion seed. Production couldn't return to normal in 2021/22 after the drought was broken. Waaikraal previously produced lucerne, tomatoes for drying, onion seed and had a cattle herd. During the drought that started in 2016, all lucerne died and no other crops were established. The cattle herd had to be sold due to a lack of pastures. Due to improved water availability, lucerne and onion seed production could commence.

The current ventures are too limited to render the farm profitable and funding is needed to improve the infrastructure, water storage and irrigation systems and to implement ventures that can optimise the income from the limited water. Therefore, Turnaround Plans for both farms were drafted in 2021, but the community engagement, with the support of the Institute for Justice and Reconciliation (IJR), is still in progress.

In the absence of approved and funded Turnaround Plans, **Casidra** endeavoured to optimise the existing ventures within the available funding.

### Sub-Programme 2.2: Farmer Support and Development

This Sub-Programme aims to implement agricultural infrastructure and production grant support to beneficiary farms in the Western Cape by means of employees who apply project management tools and skills so that delivery can be effective and efficient as well as within the timeframe allowed for the intervention.

During the preceding years, the funding transferred to Casidra for the purpose of assisting farms with infrastructure, excluding the funds for the commodities operating independently, has been declining. Due to the pressure on the fiscus, the availability of grant funding will remain under pressure.

Due to the seasonality of agriculture, many approved projects are multi-year projects and as a result of funding being transferred from the National Department in four tranches spread over the year, projects are carried over to the next year for continuation of implementation. The number of projects being carried over has dramatically reduced each year. Special effort has been made to complete or cancel, where required, older projects.

Casidra supplies institutional support to eight commodity groups to ensure compliance and implementation, and oversees the provision of secretariat services to the CPAC meetings. The services of the UTA to applicants in the CASP grant framework have stabilised and very few applications for complete business plans to be developed are received. The real need is for input on a specific resource, shareholding in terms of the B-BBEE codes and financial planning. A Land Reform Advisory Desk has been established to facilitate advice on land reform initiatives.

# PART B: PERFORMANCE INFORMATION PROGRAMME PERFORMANCE

### Sub-Programme 3.1: Community and Household Food Security

This Sub-Programme identifies needs, supports solutions and procures services and goods to assist vulnerable households and communities in selected regions of the Western Cape in the production of their own food, by initiating and cultivating gardens within the limits of the seasonal requirements of vegetables to address the issue of food security.

The lingering impact of the COVID-19 pandemic with the unprecedented rise in food prices has had a devasting impact on many households. This work done in support of households through the household and food garden project is critical. With additional funding being made available at the end of every year from savings in other programmes, these targets may increase. As with the other agricultural projects, seasonality and the timeous availability of funds will result in projects being carried over to the next financial year.

### Sub-Programme 3.2: Other Project Management Services

This Sub-Programme responds to requests from new and existing clients to project manage, administer and procure services for the identified programmes aimed at providing rural infrastructure and agriculture as well as providing job opportunities for beneficiaries of the Western Cape.

A major part of project management services over the past three years has been based on the administration of Disaster Relief grant funding. The occurrence of this cannot be predicted and will be administered if and when it happens. Special projects from the WCDoA that do not have a relationship with a specific commodity, but render a service overall, are approved by the Departmental Project Allocation Committee (DPAC). These projects are all linked to the deliverables for the Sub-Programme.

Further Education and Training works very closely with the WCDoA to respond to the achievement of the Departmental Strategic Goals, National Outcomes and Provincial Strategic Objectives. This Programme received funding during the year. The Programme includes short courses as well as vocational training, which is more expensive and targets smaller groups. Expectations for funding in the three-year cycle are similar.

During the previous terms, programmes that have a close relationship with the Farmer Support and Development Programme from the WCDoA have been contracted with the DEFF and BGCMA. These programmes will continue in the next term with further transfers of funding, and whether the expansion of assistance is well received. It is expected that the new emphasis on Agri business development may see an increase in these requests for assistance.

Casidra has been engaging with various municipalities, entities and departments to share our value offering and consider ways to partner. These efforts are starting to bear fruit and various MOUs have been concluded with further prospects for project implementation opportunities in the future.

# PART B: PERFORMANCE INFORMATION PROGRAMME PERFORMANCE

### Sub-Programme 4.1 Business Development and Growth

This Sub-Programme seeks to create opportunities for growth and development for SMMEs, Micro Enterprises and Land Reform projects through business support, Market Access initiatives, facilitating financial record-keeping and facilitating business growth through enhanced access to financial support.

Many start-up businesses are challenged to survive the inception stages and sometimes struggle to access business opportunities and support during their commencement. When new markets are accessed, there is sometimes also a need for bridging finance to successfully deliver on the contracts.

### **Sub-Programme 4.2 Job Creation Initiatives**

This Sub-Programme will access, facilitate and support job creation opportunities through partnering and implementing programmes that require labour and through training and skills development initiatives focusing specifically on the youth and aimed at providing skilled entrants to jobs in order to reduce unemployment. It seeks to provide skilled entrants to the job market in order to reduce unemployment.

# **PART C: GOVERNANCE**

"We Deliver Project Management Excellence"

### PART C: GOVERNANCE SCOPA RESOLUTION REPORT 2021/22

No requests were made by SCOPA during the 2021/22 financial year.

### PART C: GOVERNANCE CORPORATE GOVERNANCE REPORT FOR THE YEAR ENDED 31 MARCH 2023

### 1. INTRODUCTION

The Board of Directors of **Casidra** is committed to the principles of effective corporate governance and strives for the highest standards of integrity and ethics. The Board recognises the need to conduct the Company's affairs with integrity and according to generally accepted corporate governance practices.

### COMPLIANCE WITH THE KING IV REPORT

The Board supports the South African Code of Corporate Practices and Conduct as set out in the King Report on Governance

The Board's Charter and the Committees' Charters were tabled for revision by the Board, in compliance with the recommendations of King IV

### 3. EXECUTIVE AUTHORITY

Dr Ivan Meyer, Minister of Agriculture of the Western Cape Government, is the Executive Authority and Shareholder representative of Casidra.

### 4. BOARD OF DIRECTORS - ACCOUNTING AUTHORITY

The Board of Directors is responsible for the effective control of the Company. The Board comprises of seven non-executive directors.

Professor Kirsten and Mr Jefthas were re-elected as Chairperson and Vice-Chairperson respectively at the Board meeting held on 7 September 2022.

Mr Wust and Ms Moutlana resigned respectively as Casidra directors on 11 and 28 February 2023.

The Chairperson of the Board is an independent non-executive director in accordance with King IV requirements.

The non-executive directors are elected in terms of the Board Charter and their reappointment is not automatic, but by way of

The Board has four active committees which address certain specialised areas, namely Audit and Risk, Human Capital, Nomination and Social and Ethics. Each committee's roles and responsibilities, authority and reporting requirements are set out in approved charters. On 9 March 2023 the Board resolved that the Human Capital Committee and the Social and Ethics Committees be merged, and that the Project Committee be dissolved and that the roles and responsibilities be managed in accordance with the approved Delegation of Authority or policy.

In the financial year under review, the Board met four times and focused on, inter alia, strategy, performance monitoring, governance and financial oversight. Other matters relating to the overall Company objectives were also discussed and various policies were approved.

The Board has unrestricted access to all Company information, records and documents to enable it to discharge its responsibilities.

### 5. CASIDRA BOARD CHARTER

Purpose and Objectives
The purpose of the Charter is to regulate how business is good governance. The Charter sets out the specific responsibilities to be discharged by Roard members collectively to be discharged by Board members collectively and the individual roles expected of them. The objectives of the Charter include ensuring that all Board members acting on behalf of the Company are aware of their duties and responsibilities as Board members and of the legislation and various regulations affecting their conduct, as well as ensuring that the principles of good governante are applied in all their dealings in respect of and on behalf of the Company

Roles and Responsibilities of the Board
Acts as the focal point for, and custodian of, corporate governance by managing its relationship with Management, the Shareholder and other stakeholders of the Company along sound corporate governance principles.

- Guide an integrated approach to strategy, risk, performance and sustainability by:

  - Contributing to and approving the strategy; Satisfying itself that the risk associated with the strategy, corporate and business plans are being appropriately identified, assessed and managed by Management;

  - Identifying key performance and risk areas; and Ensuring that the strategy will result in sustainable outcomes.
- Provide effective leadership on an ethical foundation.
- Ensure that the Company is, and is seen to be, a responsible corporate citizen by having regard to not only the financial aspects of the business of the Company, but also the impact that strategy and business operations have on the environment and the society within which it operates.
- Ensure that the Company's ethics are managed effectively.
- Ensure that the Company has an effective and independent Audit and Risk Committee.
- Is responsible for the governance of risk.
- Is responsible for information and technology governance.
- Ensure that the Company complies with applicable laws.
- Ensure that there is an effective risk based internal audit activity.
- Ensure corporate action when stakeholders' perceptions affect the Company's reputation negatively
- Ensure the integrity of the Company's Annual Report.
- Act in the best interests of the Company by ensuring that individual Directors:
  - Adhere to legal standards of conduct;
  - Are permitted to take independent advice in connection with their duties following an agreed procedure; and
  - Disclose real or perceived conflicts to the Board and deal with them accordingly.
- Annually, at the Board meeting preceding the Annual General Meeting, elects an independent non-executive director as Chairperson of the Board.
- Appoints and ensures the evaluation of the performance of the Chief Executive Officer.
- Ensures compliance with the provisions of the Shareholder's Compact
- Develops a long-term Strategic Plan as required by the PFMA.

### BOARD APPOINTMENTS

Non-executive directors on the **Casidra** Board are appointed in terms of the Memorandum of Incorporation and reappointment is not automatic.

One-third of the serving non-executive directors, or the number closest to one-third, must resign from office at the Annual General Meeting in each odd-numbered year.

The directors who must resign are those who have been in office the longest since the most recent election, but where persons became directors on the same day, the person who is to resign must be decided among the directors themselves

The directors who must resign are eligible for reappointment (predetermined by statute) at the Annual General Meeting on condition that if a director reaches the age of 70 during his/her term of office, such person is not eligible for reappointment.

### 7. ATTENDANCE AT BOARD MEETINGS

The Board met four times for planned meetings during the financial year and the attendance was as follows:

Directors	Changes	May	Aug	Nov	Mar
CV Abdoll		✓	✓	✓	✓
EM Hendricks		Х	✓	✓	✓
EJ Jefthas		✓	✓	✓	✓
DM Johnson		✓	✓	Α	✓

AG Petersen		✓	✓	Α	✓
M Wüst	(resigned 11/02/2023)	✓	Α	✓	-

### 8. BOARD REMUNERATION

In accordance with the provisions of Section 28.1.1 of the Treasury Regulations issued in terms of the PFMA Act 1 of 1999, all emoluments of Directors are disclosed in the Annual Financial Statements. Directors' remuneration is revised annually according to National Treasury's circular.

Legend: ✓ = Attendance, A = Apologies, X = Absent

### 9. BOARD PERFORMANCE ASSESSMENT

Casidra's Vice-Chairperson was appointed to lead the performance evaluation of the Casidra Board and its committees. The Board approved a formal internal evaluation process by means of a self-evaluation questionnaire and the Company Secretary provided assistance. The Chairperson also met with each board member to discuss their performance. The results of the said self-evaluation process were analysed by the Vice-Chairperson, Chief Executive Officer and Company Secretary. There are currently no areas of concern.

### 10. SHARE DEALINGS

The Directors, members of management and employees of the Company do not own shares in the Company.

### 11. BOARD COMMITTEES

All Board Committees operate under written charters which have been revised and approved by the Board. There is transparency and full disclosure from Board Committees to the Board. Committee Chairpersons are available to provide the Board with verbal reports on recent Committee deliberations and activities at the subsequent Board meetings. Committees are empowered to take independent outside professional advice as and when deemed necessary.

The Company Secretary provides secretarial services to each of the Committees

The Board is of the opinion that the Committees have, during the year under review, effectively discharged their responsibilities as contained in their respective Charters.

A synopsis of the Committees and their mandates are contained below

### 11.1 Audit and Risk Committee

### Composition

The Audit and Risk Committee comprises at least three independent non-executive directors who are elected at the Annual General Meeting.

The members as at the end of the financial year were Ms CV Abdoll (Chairperson), Ms EM Hendricks, Mr EJ Jefthas and Mr AG Peterson.

### Chairperson

The Board of Directors appoints the Chairperson from the members of the Committee.

### Frequency of meetings

Committee meetings are held as and when necessary, but at least twice a year.

The Committee met four times during the financial year and the attendance was as follows:

Directors	Changes	May	Jul	Oct	Feb
CV Abdoll		✓	✓	✓	✓
EM Hendricks		✓	✓	✓	✓
EJ Jefthas	(appointed 09/03/2023)	-	-	-	-

### **External Audit**

 The Audit and Risk Committee nominates the independent external auditor for the Casidra projects for appointment by the Shareholder in terms of the Companies Act, 2008 and any other legislation relating to the appointment of auditors.

### Primary responsibilities

- Approves the terms of engagement and remuneration for the external audit engagements.
- Monitors and reports on the independence, objectivity quality and effectiveness of the external auditor in the Annual Financial Statements, taking into consideration relevant professional and regulatory requirements.
- Approves the contracts for non-audit services to be rendered by a service provider.
- Ensures that there is a process for the Committee to be informed of any reportable irregularities (as identified in the Auditing Profession Act, 2005) identified and reported by the external auditor.
- Discusses the nature, scope and plan for the audit with the auditor before the audit commences and, as deemed necessary, during the course of the audit.
- Reviews, with the external auditors, the findings of their work.
- Has regard to all factors and risks that may impact on the integrity of the integrated report, for example, a misleading picture, significant judgements, reporting decisions made, monitoring or enforcement actions by a regulatory body, evidence that brings into question previously published information, forward-looking information, et cetera.
- Reviews the Annual Financial Statements, other information and similar documents.
- Comments on the Financial Statements in the Annual Report, the accounting policies and the effectiveness of the internal financial controls.
- Reviews the clarity and completeness of disclosure of sustainability issues in the Annual Report to ensure that it is reliable and does not conflict with the financial information.
- Recommends to the Board whether or not to engage an external assurance provider on material sustainability issues.
- Recommends the Annual Report for approval by the Board.

### Internal Audit

- Approves the internal Audit Plan.
- Monitors and reviews the effectiveness of the internal audit function.
- Reviews and discusses the scope of work of the internal audit, issues identified and recommendations.
- Provides a source of information, as appropriate, regarding instances of fraud, corruption, unethical behaviour, irregularities and other risks.

### PART C: GOVERNANCE

### CORPORATE GOVERNANCE REPORT FOR THE YEAR ENDED 31 MARCH 2023

- Risk Management
  Considers the risk management strategy, Code of Ethics and Fraud Prevention Plan.
- Monitors the continuous risk management assessment and implementation of the strategy and plan.
- Makes recommendations to the Board concerning the levels of risk tolerance and appetite, and monitors that risks are managed within the levels of tolerance and appetite as approved by the Board.
- Ensures that management considers and implements appropriate risk monitoring and responses.
- Expresses the Committee's formal opinion to the Board on the effectiveness of the system and process of risk management.
- Reviews the timely, comprehensive and relevant reporting concerning risk management that is to be included in the Annual Report.

The Chairperson of the Audit and Risk Committee, in her discretion, may invite other members of the Board of Directors or internal auditors to attend and be heard at meetings of the Committee.

The Chief Executive Officer and Chief Financial Officer attend all meetings of the Committee and are excused from confidential

Meetings are also attended by internal and external auditors as well as relevant members of Management.

### Access

The external and internal auditors have unlimited access to the Audit and Risk Committee, thereby ensuring that independence is not compromised in any way.

### 11.2 Human Capital and Social and Ethics Committee

On 9 March 2023, the Board resolved that the Human Capital Committee and the Social and Ethics Committees be merged.

### Composition

The Human Capital Committee comprises at least three independent non-executive directors.

The members as at the end of the financial year were Ms EM Hendricks (Chairperson), Mr EJ Jefthas, Mr DM Johnson, Prof. JF Kirsten and Ms LD Mehlomakulu.

### Chairperson

The Chairperson is nominated by the Board.

### Frequency of meetings

Committee meetings are held as and when necessary, but at least quarterly.

The Committee held four meetings during the financial year. The attendance was as follows:

Directors	Changes	Apr	Aug	Nov	Feb
EM Hendricks	(appointed 09/03/2023)	-	-	-	-
EJ Jefthas		✓	✓	✓	✓
DM Johnson	(appointed 09/03/2023)	-	-	-	-
JF Kirsten		Α	✓	✓	✓

AG Petersen	(redeployed 09/03/2023)	✓	✓	✓	✓
Lagand. ( Attan	dance A Analogies				

Legend: ✓ = Attendance, A = Apologies

### **Primary Responsibilities**

- establishment and implementation Oversees the of remuneration policies in relation to employees' remuneration.
- Reviews the outcomes of the implementation of the policies for whether these policies promote the achievement of strategic objectives and encourage individual performance. The Committee will recommend the necessary improvements to the Board in this regard.
- Provides sufficient information for the Shareholder and the Board to assess the Remuneration Policy.

- Ensures that employees receive fair and competitive remuneration.
- Ensures that the remuneration of Management is determined on an independent basis by members of the Board and Management who do not have a personal interest in the outcome of their decision, bearing in mind the financial position of the Company. The Committee may coopt specific expertise, both internal and external, in order to enable it to make informed decisions. The Chief Executive Officer and a member of Management may not be present when his/her own remuneration is being discussed except when requested to provide, and for the purpose of providing, specific information.
- Ensures that provision is made for retirement benefits for employees.
- Makes recommendations on the basis of the Company's remuneration system.
- Performs duties as directed by the Board.
- Advises management with regard to employee retrenchment, severance packages, early retirements, employee handling medical disabilities, et cetera.

The Committee may co-opt specific expertise, both internal and external, in order to make informed decisions.

### 11.3 Nomination Committee

### Composition

The members of the Nomination Committee are appointed by the Board. The Nomination Committee comprises at least three independent non-executive directors.

The members as at the end of the financial year were Ms CV Abdoll, MrEJ Jefthas, MrDM Johnson, Prof. JF Kirsten (Chairperson) and Mr AG Petersen.

### Chairperson

The Chairperson is nominated by the Board.

### Frequency of Meetings

Committee meetings are held as and when necessary

The Committee held one meeting during the financial year. The attendance was as follows:

atteridance was as relieves.					
Directors	Changes	Mar			
CV Abdoll		✓			
EJ Jefthas	(appointed 09/03/2023)	✓			
DM Johnson		Α			
JF Kirsten		✓			
AG Petersen	(appointed 09/03/2023)	Α			
Legend: ✓= Attendance, A = Apology					

### **Primary Responsibilities**

- Identifies suitable members to serve on the Board.
- Performs reference and background checks of candidates
- Formalises the appointment of Directors through an agreement between the Company and the Director.

### 11.4 Project Committee

On 9 March 2023, the Board resolved that the Project Committee be dissolved and that projects be approved in line with the Delegation of Authority.

### Composition

The members of the Project Committee were appointed by the Board. The Project Committee comprised at least three independent non-executive directors.

### Frequency of meetings

Committee meetings were held as and when necessary, but at least quarterly.

The Committee held four meetings during the financial year. The attendance was as follows:

Directors	Changes	Apr	Aug	Nov	Feb
CV Abdoll		✓	✓	✓	✓
EJ Jefthas		✓	✓	✓	✓
JF Kirsten		✓	✓	✓	✓
TKM Moutlana	(resigned 28/02/2023)	✓	✓	✓	✓
M Wüst	(resigned 11/02/2023)	Α	Α	Х	-

Legend: ✓ = Attendance, A = Apologies, X = Absent

Primary Responsibilities

- Chair and/or participate on working sub-groups as appropriate.
- Proactively support and participate in an oversight capacity in all phases of the project, including fundraising, business process design, configuration, and implementation, but without transgressing on managerial responsibilities.
- Monitor and review project needs, assessments, Strategic and Corporate Plan fit, cost / benefit analysis, et cetera.
- Report quarterly to the Board regarding its deliberations and progress.
- Determine and evaluate potential alternatives to proposed projects.

### Invitees

The Project Committee has the authority to obtain advice and seek assistance from internal and external legal, accounting and other advisors.

### 11.5 Social and Ethics Committee

On 9 March 2023, the Board resolved that the Human Capital Committee and the Social and Ethics Committees be merged.

Composition

The members of the Social and Ethics Committee were appointed by the Board. The Social and Ethics Committee comprised at least three independent non-executive directors.

The members of the Human Capital and Social and Ethics Committee as at the end of the financial year were Ms EM Hendricks (Chairperson), Mr EJ Jeffhas, Mr DM Johnson, Prof. JF Kirsten and Ms LD Mehlomakulu.

Chairperson

The Chairperson is nominated by the Board.

Frequency of meetings

Committee meetings are held as and when necessary, but at least once a year.

The Committee held four meetings during the financial year. The attendance was as follows:

Directors	Changes	Apr	Aug	Nov	Feb
EM Hendricks		✓	✓	✓	✓
EJ Jefthas		✓	✓	✓	✓
DM Johnson		✓	✓	✓	✓
LD Mehlomakulu		✓	✓	Α	Α

**Legend:** ✓= Attendance, **A** = Apologies

Primary Responsibilities :

- Monitors the Company's activities, having regard to any relevant legislation, other legal requirements or prevailing codes of best practice, with regard to matters relating to social and economic development, good corporate citizenship, the environment, health and public safety, consumer relationships and labour and employment adherence.
- Draws matters within its mandate to the attention of the Board as and when required.
- Reports to the Shareholder at the Company's Annual General Meeting on the matters within its mandate.

### Invitees

The Social and Ethics Committee has the authority to obtain advice and seek assistance from internal and external legal, accounting, and other advisors.

### 12. COMPANY SECRETARY

In terms of the Companies Act a state-owned company must appoint a person to serve as Company Secretary.

The Company Secretary services were outsourced to Huruma Bantfu in October 2022.

All Directors have access to the Company Secretary who ensures that the Board's procedures, applicable rules and regulations are fully applied.

The Company Secretary keeps the Board abreast of relevant changes in legislation and governance best practices.

The information required for each Board meeting is sent to the Directors in a timely manner before each meeting to enable them to acquaint themselves of the information and to consider Company information in terms of their statutory and fiduciary responsibility.

The tabling of documents at Board meetings is done only on an exceptional basis and with the permission of the Chairperson.

### 13. GOING CONCERN

On the recommendation of the Audit and Risk Committee, the Board has considered the facts and assumptions on which it relies to conclude that the business will continue as a going concern in the financial year ahead.

The Directors are of the opinion that the business will be a going concern in the year ahead and their statement in this regard is contained in the Statement of Directors' Responsibilities in the Annual Financial Statements.

### 14. INTERNAL CONTROL

The Board acknowledges its responsibility for ensuring that the Company implements and monitors the effectiveness of the systems of internal, financial and operating controls. These systems are designed to guard against material misstatement and losses.

The internal financial and operating controls maintained by the Company are designed to provide reasonable assurance regarding:

- Safeguarding of assets against unauthorised use or misappropriation;
- The information systems environment, policies, procedures and contracts;
- Reliability and integrity of financial and other information; and
- Effectiveness of operations.

The internal audit function and the external auditors independently assess the adequacy and effectiveness of the internal controls.

Audit findings are managed by means of an audit finding tracker.

### 15. RISK MANAGEMENT

 $\hbox{\bf Casidra} \ \ \hbox{has a Risk Management Policy. The Board accepts} \ \hbox{responsibility for the risk management systems of the Company.}$ 

Material risks that may have an impact on the achievement of company objectives are identified, assessed and reported regularly in order to manage these risks.

Proper internal control systems are in place and maintained. The timely execution of control procedures and compliance with control procedures are monitored internally.

### 16. MATERIALITY

All significant events, risks and other aspects have been disclosed in the statements and Annual Report.

### 17. FRAUD PREVENTION AND FRAUD LINE

Casidra has a Fraud Prevention Policy. A whistle-blowing facility (fraud line) was in place during the financial year to assist in ensuring that the risk of fraud is monitored and minimised.

# PART C: GOVERNANCE CORPORATE GOVERNANCE REPORT FOR THE YEAR ENDED 31 MARCH 2023

### 17. FRAUD PREVENTION AND FRAUD LINE

The fraud line is a hotline whereby any employee or stakeholder can, on an anonymous and confidential basis, report any dubious activity or unethical conduct in the Company. Reports are sent directly to the Chief Executive Officer and reported to the Audit and Risk Committee.

Nothing has come to the attention of Management to indicate actual or suspected material financial loss, fraud or error that may have affected the Company during the year under review.

### 18. CONTRACTUAL OBLIGATIONS AND LEGAL ACTIONS

An agreement was concluded with the Western Cape Department of Agriculture in terms of which transfer funds were granted to **Casidra**. Obligations in terms of the agreement and the PFMA have been met.

Project agreements were signed with funders for various projects. Reporting is done in accordance with the provisions of the agreements and the values are disclosed in the Annual Financial Statements, Annexure A.

The Company is subject to legal actions inherent to its normal activities. The Company is a defendant in a damage claim amounting to R6,1 million. The Company is opposing the claim.

### 19. BROAD-BASED BLACK ECONOMIC EMPOWERMENT (B-BBEE)

The B-BBEE verification process has been completed by means of a sworn affidavit for qualifying small enterprises.

**Casidra** reported on its compliance in terms of the Broad-Based Black Economic Empowerment Act. The B-BBEE Commission accepted and acknowledged **Casidra**'s submission.

Casidra scored a Level 1 (135% Procurement recognition level).

### 20. INTERNAL AUDIT FUNCTION

The independent internal audit function has been outsourced and reports functionally to the Audit and Risk Committee and administratively to the Chief Executive Officer.

The Audit and Risk Committee reviews the three-year internal audit plan, the annual internal audit plan and the internal audit charter annually.

The internal auditors liaise closely with the external auditors to prevent duplication.

The findings and recommendations of all internal audit processes are reported quarterly to the Audit and Risk Committee.

### ETHICS

Casidra's Code of Ethics has been circulated to every employee.

A Social and Ethics Committee was established in 2012 and the Committee met twice during the financial year.

The Committee reviewed its report relating to the statutory functions in terms of the Companies Act.

He is experienced in dealing with the complexities and dynamics of public institutions, board governance and challenging stakeholders, and has facilitated numerous successful land transformation, social development and public-private initiatives. He was the HR lead for the merger and integration of Cape Town Routes Unlimited with Wesgro, and he was instrumental in leading the turnaround of the Agricultural Produce Agents Council and the Perishable Products Export Control Board as Chairperson.

### Legal and other Requirements

The Audit and Risk Committee presents this report as required by sections 51(1)(a)(ii) and 76(4)(d) of the Public Finance Management Act, 1999 and the related Treasury Regulations and section 94(7) of the Companies Act 71 of 2008.

The Audit and Risk Committee has formal terms of reference that are reviewed and approved by the board annually. The Committee has discharged its responsibilities in compliance with its terms of reference and as required by the PFMA and Companies

The Committee comprises four independent non-executive directors elected by the Shareholder at each Annual General Meeting. The Chairperson of the Committee was appointed by the Board. The Chief Executive Officer, Chief Financial Officer, Internal Audit Service provider and external auditors are permanent invitees to the Audit and Risk Committee.

Individual Committee members' details and attendance are reported in the Governance Report.

### Responsibilities

The Committee performed the following duties in terms of Section 94(7) of the Companies Act during the year under review:

Approved the External auditors' fees and terms of

- engagement:
- Prepared a report to be included in the annual financial statements for the financial year;
- Made submissions to the Board on matters concerning the Company's accounting policies, internal controls including financial controls, records and reporting; and
- Performed other oversight functions as determined by the **Board**

### **External Audit**

The Committee is responsible for overseeing the external audit process and confirms that the external auditors (Auditor-General of South Africa and BVA Bellville Incorporated) are independent of the Company and conducted the audit without influence from the Company

The Committee met with representatives of the Auditor-General of South Africa (AGSA) and BVA Bellville Incorporated independently

### Internal Audit

The Committee is responsible for overseeing the Internal Audit Function which has been outsourced to MNB Chartered Accountants. The Committee considered and approved the rolling three-year strategic and annual risk-based internal audit plan and reviewed the independence and effectiveness of the internal audit service provider, internal audit reports, management action plans and the co-ordination with external auditors.

### Internal Control

The Committee considered the effectiveness of the internal control processes based on the results of internal and external audit reviews and confirms that the internal controls, including financial controls, are adequate and effective to mitigate risks. Management has committed to implementing corrective measures to address control weakness identified in the procurement and contract management processes. Committee reviews the implementation of management actions on a quarterly basis.

### Risk Management

The Committee reviewed the strategic risk register on a quarterly basis during the year under review. Although management implemented some enhancements in the risk management process, process improvements are required to effectively embed enterprise-wide risk management practices in the Company.

A combined assurance framework has not yet been implemented at the company, largely due its size, complexity and the availability of resources. Attention will be directed to implementing a basic combined assurance framework over the next two to three years.

### **Compliance Management**

The Committee reviewed the company's compliance to relevant laws, regulations and policies on a quarterly basis. The Committee will monitor the introduction of a compliance management framework over the next two years to address compliance management weaknesses identified during the external audit.

No matters were brought to the attention of the Committee to indicate any significant non-compliance with relevant laws, regulations and the code of conduct.

### Fraud and Investigations

No matters were brought to the attention of the Committee that required further reporting.

### Information Technology

The Committee reviewed the effectiveness of the Information Technology (IT) environment and mitigating controls during the year under review. The Internal Audit Service Provider identified some control weaknesses while conducting an IT general controls review. Management has started implementing controls and mitigation measures to address these weaknesses.

### In-year Management and Quarterly Reports

The Committee reviewed quarterly financial and performance information and provided management with recommendations to improve the quality of financial and non-financial information reported to the Committee and the Board.

### Going concern

The Committee concurs with management's view and the external auditor's assessment that the adoption of the going concern assumption in the preparation of the annual financial statements is appropriate.

In assessing the going concern basis of accounting, the Committee considered the budget and cash flow forecast prepared by management for the 2023/2024 financial year as well as the various cost containment initiatives presented by management.

### Key areas of focus for 2023/2024

Opportunities for improvement were identified in the following processes and will be monitored closely by the Committee during the 2023/24 financial year:

- Combined Assurance;
- ICT Governance; and
- Risk and Compliance management.

### **Annual Financial Statements**

Having reviewed the Annual Financial Statements for the financial year ended 31 March 2023, the Committee is satisfied that the annual financial statements fairly present the financial performance and position of the Company and comply, in all material respects, with the requirements of the Companies Act, PFMA and Generally Recognised Accounting Practices.

### Legal and Regulatory Compliance

The Audit and Risk Committee recommended the adoption of the annual financial statements and annual report to the Board for approval.

The Committee wishes to express its appreciation to the Auditor-General of South Africa for their support during the audit and to the management of Casidra who redesigned and optimised the performance information process to address significant weaknesses identified in the previous year and succeeded in again achieving an unqualified audit opinion.

CV ABDOLL

Chairperson: Audit and Risk Committee

26 July 2023

## PART F: FINANCIAL INFORMATION

"We Deliver Project Management Excellence"

# PART F: FINANCIAL INFORMATION REPORT OF THE AUDITOR-GENERAL TO THE WESTERN CAPE PROVINCIAL PARLIAMENT ON CASIDRA SOC LTD

### REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

### Opinion

- I have audited the financial statements of Casidra SOC Ltd set out on pages 59 to 75, which comprise the statement of financial position as at 31 March 2023, statement of financial performance, statement of changes in net assets and statement of cash flows for the year then ended, as well as notes to the financial statements, including a summary of significant accounting policies.
- In my opinion, the financial statements present fairly, in all material respects, the financial position of Casidra SOC Ltd as at 31 March 2023, and its financial performance and cash flows for the year then ended in accordance with the Standard of Generally Recognised Accounting Practice (GRAP) and the requirements of the Public Finance Management Act 1 of 1999 (PFMA) and the Companies Act 71 of 2008 (Companies Act).

### Basis for opinion

- I conducted my audit in accordance with the International Standards on Auditing (ISAs). My responsibilities under those standards are further described in the responsibilities of the auditor-general for the audit of the financial statements section of my report.
- 4. I am independent of the company in accordance with the International Ethics Standards Board for Accountants' International code of ethics for professional accountants (including International Independence Standards) (IESBA code) as well as other ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
- 5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

### **Emphasis of matter**

I draw attention to the matter below. My opinion is not modified in respect of this matter.

### Contingent liabilities

7. With reference to note 34 to the financial statements, the company is a defendant in a damages claim amounting to R6 155 000. The company is opposing the claim. The ultimate outcome of the matter could not be determined and no provision for any liability that may result was made in the financial statements.

### Other matters

 I draw attention to the matter below. My opinion is not modified in respect of this matter.

### Unaudited supplementary schedules

9. The supplementary information set out in pages 76 to 81 does not form part of the financial statements and is presented as additional information. I have not audited these schedules and accordingly, I do not express an opinion on them.

### National Treasury Instruction Note No. 4 of 2022-23: PFMA Compliance and Reporting Framework

Note No. 4: PFMA Compliance and Reporting Framework of 2022-23 in terms of section 76(1)(b), (e) and (f), 2(e) and (4) (a) and (c) of the PFMA, which came into effect on 3 January 2023. The PFMA Compliance and Reporting Framework also addresses the disclosure of unauthorised expenditure, irregular expenditure and fruitless and wasteful expenditure (UIFW expenditure). Among the effects of this framework is that irregular and fruitless and wasteful expenditure incurred in previous financial years and not addressed is no longer disclosed in the disclosure notes of the annual financial statements. Only the current year and prior year figures are disclosed in note 35 to the financial statements. The movements in respect of irregular expenditure and fruitless and wasteful expenditure are no longer disclosed in the notes to the annual financial statements of Casidra. The disclosure of these movements (e.g. condoned, recoverable, removed, written off, under assessment, under determination and under investigation) are now required to be included as part of other information in the annual report of the department. I do not express an opinion on the disclosure of irregular expenditure and fruitless and wasteful expenditure of irregular expenditure and fruitless and wasteful expenditure of irregular expenditure and fruitless and wasteful expenditure in the annual report.

### Responsibilities of the accounting authority for the financial statements

- 11. The board of directors, which constitutes the accounting authority is responsible for the preparation and fair presentation of the financial statements in accordance with the GRAP and the requirements of the PFMA and Companies Act; and for such internal control as the accounting authority determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
- 12. In preparing the financial statements, the accounting authority is responsible for assessing the company's ability to continue as a going concern; disclosing, as applicable, matters relating to going concern; and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

### Responsibilities of the auditor-general for the audit of the financial statements

- 13. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error; and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.
- A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

### REPORT ON THE AUDIT OF THE ANNUAL PERFORMANCE REPORT

- 15. In accordance with the Public Audit Act 25 of 2004 (PAA) and the general notice issued in terms thereof, I must audit and report on the usefulness and reliability of the reported performance against predetermined objectives for selected programmes presented in the annual performance report. The accounting authority is responsible for the preparation of the annual performance report.
- 16. I selected the following programmes presented in the annual performance report for the year ended 31, March, 2023 for auditing. I selected programmes that measure the company's performance on its primary mandated functions and that are of significant national, community or public interest.

PROGRAMME	PAGE NUMBERS	PURPOSE
Programme 2 – Agriculture and land reform	24	To manage two Government farms. To ensure a sustainable support mechanism for new and established farmers including land reform beneficiaries and farm workers. To facilitate access to land through the unit for technical assistance and land reform advisory desk by crafting plans to ensure sustainable land reform.
Programme 3 – Rural infrastructure development and poverty alleviation	26 - 27	To provide a project management services for specific rural development projects and agricultural initiatives with the aim of improving the standard of living of people in rural areas, to holistically address the socio-economic need of rural communities and to create employment in rural areas.

- 17. I evaluated the reported performance information for the selected programmes against the criteria developed from the performance management and reporting framework, as defined in the general notice. When an annual performance report is prepared using these criteria, it provides useful and reliable information and insights to users on the company's planning and delivery on its mandate and objectives.
- 18. I performed procedures to test whether:
- The indicators used for planning and reporting on performance can be linked directly to the company's mandate and the achievement of its planned objectives.
- The indicators are well defined and verifiable to ensure that they are easy to understand and apply consistently and that I can confirm the methods and processes to be used for measuring achievements.
- The targets can be linked directly to the achievement of the indicators and are specific, time bound and measurable to ensure that it is easy to understand what should be delivered and by when, the required level of performance as well as how performance will be evaluated.
- The indicators and targets reported on in the annual performance report are the same as what was committed to in the approved initial or revised planning documents.
- The reported performance information is presented in the annual performance report in the prescribed manner.
- There are adequate supporting evidence for the achievements reported and for the reasons provided for any over/under achievement of targets.
- I performed the procedures for the purpose of reporting material findings only and not to express an assurance opinion.
- 20. I did not identify any material findings on the reported performance information of the selected programmes.

### Other matters

21. I draw attention to the matter below.

### Achievement of planned targets

22. The annual performance report includes information on reported achievements against planned targets and provides explanations for over/under achievements.

### REPORT ON COMPLIANCE WITH LEGISLATION

- 23. In accordance with the PAA and the general notice issued in terms thereof, I must audit and report on compliance with applicable legislation relating to financial matters, financial management and other related matters. The accounting authority is responsible for the company's compliance with legislation.
- 24. I performed procedures to test compliance with selected requirements in key legislation in accordance with the findings engagement methodology of the Auditor-General of South Africa (AGSA). This engagement is not an assurance engagement. Accordingly, I do not express an assurance opinion or conclusion.
- 25. Through an established AGSA process, I selected requirements in key legislation for compliance testing that are relevant to the financial and performance management of the company, clear to allow consistent measurement and evaluation, while also sufficiently detailed and readily available to report in an understandable manner. The selected legislative requirements are included in the annexure to this auditor's report.
- 26. I did not identify any material non-compliance with the selected legislative requirements.

### OTHER INFORMATION IN THE ANNUAL REPORT

- 27. The accounting authority is responsible for the other information included in the annual report, which includes the directors' report, the audit committee's report and the company secretary's certificate, as required by the Companies Act 71 of 2008. The other information referred to does not include the financial statements, the auditor's report and those selected programmes presented in the annual performance report that have been specifically reported on in this auditor's report.
- 28. My opinion on the financial statements, the report on the audit of the annual performance report and the report on compliance with legislation, do not cover the other information included in the annual report and I do not express an audit opinion or any form of assurance conclusion on it.
- 29. My responsibility is to read this other information and, in doing so, consider whether it is materially inconsistent with the financial statements and the selected programmes presented in the annual performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
- 30. I have nothing to report in this regard.

### **INTERNAL CONTROL DEFICIENCIES**

- 31. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with applicable legislation; however, my objective was not to express any form of assurance on it.
- I did not identify any significant deficiencies in internal control.

### PART F: FINANCIAL INFORMATION REPORT OF THE AUDITOR-GENERAL OF SA TO WESTERN CAPE PROVINCIAL PARLIAMENT ON CASIDRA SOC LTD

### ANNEXURE TO THE AUDITOR'S REPORT

The annexure includes the following:

- The auditor-general's responsibility for the audit
  The selected legislative requirements for compliance testing

### Auditor-General's responsibility for the audit

### Professional judgement and professional scepticism

As part of an audit in accordance with the ISAs, I exercise professional judgement and maintain professional scepticism throughout my audit of the financial statements and the procedures performed on reported performance information for selected programmes and on the company's compliance with selected requirements in key legislation.

### **Financial statements**

In addition to my responsibility for the audit of the financial statements as described in this auditor's report, I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks; and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made.

- Conclude on the appropriateness of the use of the going concern basis of accounting in the preparation of the financial statements. I also conclude, based on the audit evidence obtained, whether a material uncertainty exists relating to events or conditions that may cast significant doubt on the ability of the company to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my Auditor's Report to the related disclosures in the financial statements about the material uncertainty or, if such disclosures are inadequate, to modify my opinion on the financial statements.
- My conclusions are based on the information available to me at the date of this Auditor's Report. However, future events or conditions may cause a company to cease operating as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

### Communication with those charged with governance

I communicate with the accounting authority regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide the accounting authority with a statement that I have complied with relevant ethical requirements regarding independence and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence and, where applicable, actions taken to eliminate threats or safeguards applied.

### COMPLIANCE WITH LEGISLATION - SELECTED LEGISLATIVE REQUIREMENTS

### The selected legislative requirements are as follows:

	SELECTED LEGISLATION AND REGULATIONS	CONSOLIDATED FIRM LEVEL REQUIREMENTS
1	Public Finance Management Act No.1 of 1999 (PFMA)	Section 50(3) Section 51(1)(a)(iii); 51(1)(a)(iv); 51(1)(b)(i); 51(1)(b)(ii); 51(1)(e)(iii) Section 52(b) Section 53(4) Section 54(2)(c'); 54(2)(d) Section 55(1)(a); 55(1)(b); 55(1)(c)(i) Section 56 Section 57(b) Section 57(d) Section 66(3)(d); 66(5); 67
2	Treasury Regulations for departments, trading entities, constitutional institutions and public entities (TR)	Treasury Regulation 29.1.1; 29.1.1(a); 29.1.1(c'); 29.2.1; 29.2.2; 29.3.1 Treasury Regulation 31.1.2(c') Treasury Regulation 31.2.5; 31.2.7(a) Treasury Regulation 32.1.1(a); 32.1.1(b); 32.1.1(c') Treasury Regulation 33.1.1; 33.1.3
3	Companies Act No.71 of 2008	Section 45(2); 45(3)(a)(ii); 45(3)(b)(i); 45(3)(b)(ii); 45(4) Section 46(1)(a); 46(1)(b); 46(1)(c') Section 112(2)(a); Section 129(7)
4	Prevention and Combating of Corrupt Activities Act No.12 of 2004 (PRECCA)	Section 34(1)

# PART F: FINANCIAL INFORMATION STATEMENT OF DIRECTORS' RESPONSIBILITIES FOR THE YEAR ENDED 31 MARCH 2023

The Directors are responsible for the preparation, integrity and fair presentation of the financial statements of Casidra SOC Limited. The financial statements presented on pages 58 to 81 have been prepared in accordance with Standards of Generally Recognised Accounting Practice in South Africa and in the manner required by the South African Companies Act. These are supported by reasonable and prudent judgements and estimates made by Management.

The Directors have reviewed the entity's cash flow forecast for the year ending 31 March 2023, and in light of this review and the current financial position, they are satisfied that the entity has adequate resources to continue in operation for the foreseeable future

The Annual Financial Statements are prepared on the basis that the entity is a going concern and that the entity has neither the intention nor the need to liquidate or curtail materially the scale of the entity.

The Directors are also responsible for the Company's system of internal financial control. These are designed to provide reasonable, but not absolute, assurance as to the reliability of the financial statements and to adequately safeguard, verify and maintain accountability of the assets, as well as to prevent and detect misstatement and loss. Nothing has come to the attention of the Directors to indicate that any material breakdown in the functioning of these controls, procedures and systems has occurred during the year under review.

The Directors acknowledge that they are ultimately responsible for the control and security of the website and for the implementation and control of the process of electronic

distribution of annual reports and financial statements. These control measures and integrity of the website are not included in the audit of financial statements. Although the Directors and the Company place considerable importance on maintaining a strong control environment, neither the Directors, nor the Auditors, can accept responsibility for changes made to the financial statements after being initially published on the website.

The financial statements have been audited by the Auditor-General of South Africa, who was given unrestricted access to all financial records and related data, including minutes of all meetings of the Board of Directors and the Committees. The Directors believe that all representations made to the independent auditors during their audit are valid and appropriate.

The Audit Report of the Auditor-General of SA is presented on pages 53 to 56.

The Annual Financial Statements for the year ended 31 March 2023 were approved by the Board of Directors and are signed on behalf of the Board by:

**Prof. J Kirsten**Chairperson of the Board

24 August 2023

Ms C Abdoll

Director 24 August 2023

### SECRETARIAL CERTIFICATION

In accordance with Section 88(2)(e) of the Companies Act, 71 of 2008, the Company has lodged with the Registrar of Companies all such returns as are required of a public company in terms of the Act and that such returns are true, correct and up to date.

S Tshabalala Huruma Bantfu Company Secretary 24 August 2023

### 1. NATURE OF BUSINESS

Casidra SOC Limited is a state-owned company and a project implementing company for the Western Cape Government. In accordance with the Public Finance Management Act, Casidra has been listed as a Schedule 3D provincial government business enterprise.

The vision of the Company is to be the catalyst for growth towards self-sustainable communities.

Supplementary goals contained in the founding statement are:

- poverty alleviation through broad-based economic growth and rural development: and
- development of human resources and capacity building.

A general summary of activities and the attainment of objectives are given in the overviews contained in the Annual Report.

### 2. FINANCIAI POSITION

The financial position of the Company's business and activities are disclosed in the attached Annual Financial Statements. During the financial year under review, the Company incurred net operational costs of R28,4 million (2022: R28,1 million) before transfer funding, VAT inclusive, of R32,4 million (2022: R25,3 million) from the Western Cape Department of Agriculture.

Casidra's accumulated deficit at the reporting date was R2,4 million (2022: R2,1 million).

Based on a review of the projected cash flows for the next twelve months, the short-term financial position of the Company remains sound. However, the medium and long-term sustainability of the Company is dependent on continued and timely funding from government and the identification of additional sources of revenue. The Directors believe that Casidra has adequate resources in pace to continue operating as a going concern.

### 3. AUDITORS

The Auditor-General of South Africa conducts the audit in terms of the Public Audit Act, 2004 (Act no. 25 of 2004) Section 4(3)(a).

### 4. SHARE CAPITAL

The authorised and issued share capital remained unchanged. The equity of the Company was R22,6 million as at 31 March 2023 (2022: R22,9 million). The Western Cape Government holds the total shareholding of the Company.

### 5. DIVIDEND

No dividend was declared or paid for the year (2022: R Nil).

### 6. DIRECTORS

	ollowing non-executive dire ial year:	ectors served during the

22 Louws Avenue PO Box 660 **SOUTHERN PAARL** SOUTHERN PAARL 7646

### 7624

8. FINANCIAL REPORTING FRAMEWORK

Casidra's financial statements are prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP).

### BROAD-BASED BLACK ECONOMIC EMPOWERMENT (B-BBEE)

Information on compliance with the B-BBEE Act is included in the governance section of the Annual Report.

### 10. INVESTIGATIONS

Aquaculture CPAC approved eight projects for The implementation by Casidra in 2019 to the total value of R8,7 million. The projects were approved to receive mussel lines to enable the farmers to successfully farm mussels in the Saldanha harbour.

Due to delays linked to imports not arriving on time, implementation not proceeding as scheduled and cumbersome off-take agreements with the service provider, complaints of impropriety were received by the SIU in the Western Cape via their tip-off line.

Casidra investigated the allegations and placed the service provider on terms with clear delivery timelines. The SIU has been kept abreast on the developments and progress being made.

On 12 May 2023, Casidra was notified that the service provider had been placed under business rescue. The business rescue company approached Casidra to nominate a contact person under proxy to form part of the creditors panel. The value of the claim is R650 642. In the interim, Casidra requested the service provider to provide outstanding floats to the value of R650 642 which may include second-hand floats. The final confirmation is

### 11. EVENTS AFTER THE REPORTING DATE

No material events which may have a significant influence on the financial position of the Company occurred between the financial year end date and the approval date of the Annual Financial Statements.

### **GENERAL INFORMATION**

Casidra SOC Limited is a project implementing company for the Western Cape Government. In accordance with the Public Finance Management Act, Casidra has been listed as a Schedule 3D provincial government business enterprise.

The Company is a state-owned company incorporated and domiciled in South Africa. The address of its registered office is 22 Louws Avenue, Southern Paarl.

### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### 2.1 Presentation of financial statements

The financial statements have been prepared:

- in accordance with Standards of Generally Recognised Accounting Practice (GRAP), including any interpretations and directives issued by the Accounting Standards Board in accordance with Sections 55(1)(b) and 91(1) of the Public Finance Management Act (Act 1 of 1999); on an accrual basis of accounting in accordance with the historical cost convention basis of measurement unless
- historical cost convention basis of measurement, unless specified otherwise; and on the expectation that the Company will continue to operate
- as a going concern for at least the next twelve months.

The accounting policies are consistent with the previous period, have been consistently applied to all the years presented and are disclosed below.

### 2.2 Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in South African Rand, which is the Company's functional and presentation currency.

### 2.3 Property and equipment

Property and equipment are tangible non-current assets that are held for use in the supply of services and are expected to be used during more than one period

The cost of property and equipment is recognised as an asset when it is probable that future economic benefits associated with the item will flow to the Company and the cost can be measured reliably.

All property and equipment are stated at historical cost less accumulated depreciation taking into account the residual value. Historical cost includes expenditure that is directly attributable to the acquisition of the items to bring it to the location and condition necessary for operation.

Subsequent costs are included in the assets' carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits or increased service potential associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the Statement of Financial Performance during the financial period in which they are incurred.

Land is not depreciated. Property and equipment are depreciated on the straight line basis to their estimated residual values over their expected useful lives that have been assessed as follows:

Buildings	66 years
Office furniture and equipment	5 - 20 years
Vehicles	4 - 20 years
Computers	3 - 5 years

The depreciation charge for each period is recognised in surplus or

The assets' residual values, estimated useful lives and depreciation method are reviewed annually for indicators that factors may have changed and are adjusted prospectively, if appropriate, at each reporting date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

The carrying amount of an item of property and equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal.

Gains and losses from the derecognition of an item of property and equipment are determined as the difference between the net disposal proceeds, if any, and the assets' carrying amount. These are included in the surplus or deficit in the Statement of Financial Performance. Gains are not classified as revenue. When revalued assets are sold, the amounts included in other reserves are transferred to the accumulated surplus.

Expenditure to repair and maintain property and equipment as well as relevant information relating to assets under construction is disclosed separately in the notes to the financial statements.

### 2.4 Intangible assets

An intangible asset is recognised when it is probable that future economic benefits associated with the item will flow to the Company and the cost can be measured reliably.

Intangible assets are acquired through exchange transactions and are stated at historical cost less accumulated amortisation and any impairment losses taking into account the useful lives of the assets. Historical cost includes expenditure that is directly attributable to the acquisition of the assets.

Subsequent costs are included in the assets' carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured. reliably or when there is an increase in the service potential for the asset.

Amortisation is provided to write down the intangible assets on a straight line basis over the estimated useful life to their residual values and the amortisation period is reviewed at each reporting date. The estimated useful life is estimated to be two years.

Intangible assets are derecognised on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the derecognition of an intangible asset is determined as the difference between the net disposal proceeds, if any, and the assets' carrying amount. These are included in the surplus or deficit in the Statement of Financial Performance. Gains are not classified as revenue.

### 2.5 Investment property

Investment property is an office building held by the Company to earn rentals or for capital appreciation, or both. It is not used by the Company for the supply of goods or services or for sale in the ordinary course of business.

Investment property is recognised as an asset when it is probable that the future economic benefits will flow to the entity and the cost or fair value of the investment property can be measured reliably.

Investment property is stated at historical cost less accumulated depreciation and any accumulated impairment losses, taking into account the residual value. Historical cost includes expenditure that is directly attributable to the acquisition of the property. Subsequent costs are included in the property's carrying amount only when it is probable that future economic benefits or increased service potential associated with the item will flow to the Company and the cost of the item can be measured reliably.

Repairs and maintenance are charged to the Statement of Financial Performance during the financial period in which they are incurred and are disclosed in the investment property note Relevant information regarding assets under construction is also disclosed in this note.

Depreciation is calculated on the straight-line method to allocate the cost or revalued amounts to the residual values over their estimated useful lives. The useful life is 50 years.

Investment property is derecognised when the asset is disposed of or when there are no further benefits expected from the use of the

### 2.6 Impairment of non-financial assets

Assets that are subject to amortisation or depreciation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets, other than goodwill, that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

# PART F: FINANCIAL INFORMATION NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2023

### 2.7 Financial assets 2.7.1 Classification

A financial asset is any asset that is cash, a contractual right to receive cash or another financial asset from another entity. The Company classifies its financial assets in the following categories: financial assets at fair value and receivables at amortised cost. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition and re-evaluates this designation at every reporting date.

### a. Financial assets at fair value

This category consists of 'financial assets held for trading', and those designated at fair value at inception. A financial asset is classified in this category if acquired principally for the purpose of selling in the short-term or if so designated by Management.

Derivatives are also categorised as 'held for trading' unless they are designated as hedges. Assets in this category are classified as current assets if they are either held for trading or are expected to be realised within 12 months of the reporting date.

### b. Receivables at amortised cost

Receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the reporting date. These are classified as non-current assets. Receivables are classified as 'Receivables from exchange transactions' in the Statement of Financial Position.

### 2.7.2 Recognition and measurement

Regular purchases and sales of investments are recognised on trade-date – the date on which the Company commits to purchase or sell the asset.

Financial assets carried at fair value are initially recognised at fair value and transaction costs are expensed in the Statement of Financial Performance.

Investments are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Company has transferred substantially all risks and rewards of ownership. Financial assets and other financial assets are subsequently carried at fair value. Receivables and held-to-maturity investments are carried at amortised cost using the effective interest method.

Gains or losses arising from changes in the fair value of the 'financial assets at fair value' category, including interest and dividend income, are presented in the Statement of Financial Performance in the period in which they arise.

The fair values of quoted investments are based on current bid prices. If the market for a financial asset is not active, the Company establishes fair value by using valuation techniques. These include the use of recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis and option pricing models, making maximum use of market inputs and relying as little as possible on entity-specific inputs.

The financial assets are assessed at each reporting date to determine whether there is objective evidence that a financial asset or a group of financial assets is impaired.

### 2.7.3 Receivables from exchange transactions

Receivables from exchange transactions are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for impairment of receivables from exchange transactions is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments are considered indicators that the receivable is impaired.

The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. The amount of the provision is recognised in the Statement of Financial Performance.

### 2.7.4 Prepayments

Prepayments are prepaid insurance cost and are carried at cost less any accumulated impairment losses.

### 2.7.5 Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks and other short-term highly liquid investments with original maturities of three months or less.

### 2.7.6 Project cash and cash equivalents

Cash and cash equivalents received by the Company to implement projects are classified as Project cash and cash equivalents.

Project cash and cash equivalents include deposits held at call with banks and other short-term highly liquid investments with original maturities of three months or less.

### 2.8 Financial liabilities

A financial liability is a contractual obligation to deliver cash or another financial asset to another entity.

Any other financial liabilities are classified as Other financial liabilities. All payables are initially measured at fair value, net of transaction costs. Payables are subsequently measured at amortised cost using the effective interest rate method. The interest expense is recognised in the Statement of Financial Performance by applying the effective interest rate.

Financial liabilities are derecognised only when the obligations are discharged, cancelled or they expire.

The entity recognises the difference between the carrying amount of the financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, in the Statement of Financial Performance.

The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability.

### 2.9 Share Capital

Ordinary shares are classified as equity.

### 2.10 Deferred income tax

The tax expense for the period comprises deferred tax. Tax is recognised in the Statement of Financial Performance.

The current income tax charge is calculated on the basis of tax laws enacted or substantively enacted at the reporting date in South Africa where the Company operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establish provisions, where applicable, on the basis of amounts expected to be paid to tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax basis of assets and liabilities and their carrying amounts in the financial statements.

Deferred income tax is determined using tax rates that have been enacted or substantively enacted by the reporting date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred tax assets relating to the carry forward of unused tax losses are recognised to the extent that it is probable that future taxable profit will be available against which the unused tax losses can be utilised.

### 2.11 Provisions

Provisions are recognised when: the Company has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

### 2.11 Provisions

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as an interest expense.

### 2.12 Project creditors

Funds received to implement or fund projects are recorded in a separate set of records per project. The total of all the projects' unspent money at the reporting date is classified as Project creditors and it equals the total cash and cash equivalents.

### 2.13 Revenue recognition

Revenue, net of value-added taxation, is derived from services rendered and is measured at the fair value of the consideration received or receivable.

Revenue from non-exchange transactions refers to transfer funding received from the Western Cape Department of Agriculture.

Revenue from exchange transactions refers to revenue that accrued to the Company in return for services rendered, the value of which approximates the consideration received or receivable. The revenue from exchange transactions is recognised as follows:

(a) Rendering of services

Rendering of services are recognised in the accounting period in which the services are rendered, by reference to completion of the specific transaction assessed on the basis of the actual service provided as a proportion of the total service to be provided.

### (b) Interest income

Interest income is recognised on a time-proportion basis using the effective interest method. When a receivable is impaired, the Company reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at the original effective interest rate of the instrument, and continues unwinding the discount as interest income

### (c) Dividend income

Dividend income is recognised when the right to receive the payment is established.

### 2.14 Dividend distribution

Dividend distribution to the Company's shareholders is recognised as a liability in the Company's financial statements in the period in which the dividends are approved by the Company's shareholder.

### 2.15 Compensation of employees

Remuneration to employees is recognised in the Statement of Financial Performance as the services are rendered, except for non-accumulating benefits which are only recognised when the specific event occurs. The Company has opted to treat its provisions for leave pay and performance bonuses as provisions.

The costs of short-term employee benefits are recognised during the period in which the employee renders the related service. The liability for leave pay is based on the total accrued leave days at yéar end and is shown as a provision in the Statement of Financial Position. The Company recognises the expected cost of performance bonuses only when the Company has a present legal or constructive obligation to make such payment and a reliable estimate can be made.

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the Statement of Financial Performance on a straight-line basis over the period of the lease.

### 2.17 Irregular expenditure

Irregular expenditure as defined in section 1 of the PFMA is expenditure other than unauthorised expenditure, incurred in contravention of or that is not in accordance with a requirement of any applicable legislation, including

- this Act; or
- the State Tender Board Act, 1968 (Act No. 86 of 1968), or any regulations made in terms of the Act; or any provincial legislation providing for procurement b.
- procedures in that provincial government.

National Treasury instruction no. 4 of 2022/2023 which was issued in terms of sections 76(1)(b), (e) and (f), (2)(e) and (4)(a) and (c) of the PFMA requires the following (effective from 3 January 2023):

Losses emanating from irregular expenditure are recognised as a receivable in the statement of financial position when recoverable. The receivable is measured at the amount that is expected to be recovered and is de-recognised when settled or subsequently written-off as irrecoverable.

Irregular expenditure is recorded in the notes to the annual financial statements when incurred and at amounts confirmed and comprises of irregular expenditure:

- that was incurred and confirmed in the previous financial year;
- that was under assessment in the previous financial year;
- relating to previous financial year and identified in the current year; and
- incurred in the current year.

### 2.18 Fruitless and wasteful expenditure

Fruitless and wasteful expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred and at amounts confirmed and comprises of fruitless and wasteful expenditure:

- that was incurred and confirmed in the previous financial year;
- that was under assessment in the previous financial year; relating to previous financial years and identified in the current
- vear and
- incurred in the current year.

The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

### CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

### 3. 1 Critical accounting estimates and assumptions

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

### Property and equipment

Depreciation on assets is calculated over their estimated useful lives, taking into account the residual value of the asset at the end of its useful life.

Certain office furniture and equipment is expected to remain in use for longer than ten years from the date of purchase. As a result, the remaining useful lives of these assets increased and their estimated residual values may decrease. The effect of these changes on the actual and expected depreciation in the current and future periods is not disclosed because the cost of estimating the expenses does not exceed the benefits.

### 3. 2 Critical judgements in applying the entity's accounting policies

Management did not make any critical judgements in applying the entity's accounting policies.

### RELATED PARTIES

Related parties are persons or entities with the ability to control or exercise significant influence over the entity (or vice versa) in making financial and operational decisions or if both parties are subject to common control.

Related party relationships where control exists are disclosed irrespective of whether there have been transactions between the related parties. Related party disclosures for transactions that took place on terms and conditions considered to be "at arms length" and "in the ordinary course of business" are not disclosed.

### 5. NEW STANDARDS AND INTERPRETATIONS5. 1 Standards and interpretations effective and adopted in the current year

There are no standards and interpretations of GRAP which have been issued and are effective for the Company's accounting periods beginning on or after 1 April 2022 or later periods.

### 5. 2 Standards and interpretations issued, but not yet effective

There are no standards and interpretations of GRAP which have been issued and are effective for the Company's accounting periods beginning on or after 1 April 2023 or later periods.

34. CONTINGENT LIABILITIES	2023 R	2022 R
Claim against the company - private fruit orchards	6 155 000	6 155 000
Casidra was notified in June 2021 that it was the fifth respondent out of six of a summons to appear in the High Court. The plaintiff is a private farmer in Prince Albert that alleges that in 2019 a herbicide was used to clear alien vegetation on his farm that accidentally landed up contaminating his fruit orchards. As a result he lost some of his trees, including some revenue on his fruit exports for three consecutive years and is now claiming damages for those losses. Casidra is opposing the claim and has responded via its attorneys.		

Irregular expenditure Fruitless and wasteful expenditure		R
	-	310 151
Closing Balance	-	310 151

A restatement of the 2022/23 comparative amount was necessary due to the implementation of the PFMA Compliance Reporting requirements.

There were no material losses through criminal conduct.

Disciplinary processes were instituted against the employees responsible.

## 37. FINANCIAL RISK MANAGEMENT 37.1 FINANCIAL RISK FACTORS

The Company's activities expose it to a variety of financial risks: market risk (including currency risk and price risk), credit risk, liquidity risk, fair value cash flow risk and fair value interest rate risk. The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Company's financial performance.

The Board provides principles for overall risk management as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and the investment of excess liquidity.

### a. Market risk

### i. Foreign exchange risk

The Company does not operate internationally and is not exposed to foreign exchange risk arising from various currency exposures.

### Price risk

The Company is not subject to other material price risks.

### b. Credit risk

The Company has a limited concentration of credit risk. The Company has no credit facility and has policies that limit the amount of credit exposure to any financial institution. Funds are invested with reputable financial establishments.

### c. Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure that it will always have sufficient liquidity to meet its liabilities, when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Cash flow requirements are monitored with monthly cash forecasts which includes the servicing of financial obligations, but excludes the potential impact of extreme circumstances that cannot be reasonably predicted.

The Company's financial liabilities are limited to payables which are repayable within 12 months.

## 37. FINANCIAL RISK MANAGEMENT 37.1 FINANCIAL RISK FACTORS

### d. Cash flow and fair value interest rate risk

The Company is exposed to cash flow interest rate risk in South Africa that arises from changes in the SA Reserve Bank's reportate. The Company's financial assets subject to interest rate risk include cash and short-term bank deposits that are invested at variable rates.

Refer to note 36.1 for the disclosure of the Company's exposure to interest rate risks and the effective interest rate on financial instruments as at reporting date.

The Company earns interest on cash and short-term bank deposits. If the interest rate should change by 0,5% (all other factors remaining unchanged) the effect on profit would be as follows:

Effect on profit	2023 R	2022 R
Increase of 0,5%, profit will increase with	217 208	144 312
Decrease of 0,5%, profit will decrease with	( 217 208)	( 144 312)

### e. Capital risk management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide benefits for the shareholder and other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

## 37. FINANCIAL RISK MANAGEMENT 37.2 FAIR VALUE ESTIMATION

There are no assets valuated at fair value.

### 38. CORRECTION OF ERROR

The entity applied GRAP 23. **Casidra** previously disclosed the total for project creditors and project other payables from exchange transactions. Disclosure changes were made in order to disclose project creditors and project other payables from exchange transactions separately. The details of the corrections are described below.

### **Restatement of Current liabilities**

The prior year figures for current liabilities have been restated to account for the project creditors and project other payables from exchange transactions separately.

The effects of the correction are as follows:	Previously 2022 R	Restatement R	Restated 2022 R
Current liabilities			
Project creditors	195 430 037	(9 789 668)	185 640 369
Project other payable from exchange transactions	-	9 789 668	9 789 668
