MEMORANDUM ON THE OBJECTS OF THE NATIONAL LAND TRANSPORT AMENDMENT BILL, 2016

1. BACKGROUND AND PURPOSE

The National Land Transport Act, 2009 (Act No. 5 of 2009) (“Act”) was enacted to further the process of transformation and restructuring of the national land transport system initiated by the National Land Transport Transition Act, 2000 (Act No. 22 of 2000) (“the Transition Act”) and provide for related matters.

The Act was enacted in some haste in order to implement the *Public Transport Strategy and Action Plan, 2007* and cater for the introduction of bus rapid transit (BRT) systems being introduced pursuant to that Strategy, as well as to provide certain arrangements for the 2010 FIFA Football World Cup. Parliament’s Portfolio Committee on Transport expressed the view when passing the Act that it should be revised to ensure that the relevant policy has been correctly captured and to cater for possible problems and issues that may arise with implementing the Act.

The Act has been in operation since December 2009 (some of its provisions since August 2009) and has met with a large measure of success in achieving its objectives, which included the consolidation of transport functions at the local level. However a number of issues, mostly technical in nature, have necessitated amendment of the Act as envisaged by the abovementioned Parliamentary Committee.

2. CLAUSE-BY-CLAUSE ANALYSIS

2.1 Clause 1: Amendment of section 1 of Act 5 of 2009

Clause 1 substitutes, deletes and adds certain definitions. A new definition of “targeted categories of passengers” is inserted to bring the concept into line with international best practice. A new definition of “association” is inserted because regulatory entities will be required to keep certain information on operator associations and take it into account in managing operating licences. A new definition of electronic hailing service or e-hailing service is inserted as the Bill provides for e-hailing service to enable passengers to hail a vehicle using technology-enabled application. A new definition of “municipal regulatory entity” is inserted to make the Act easier to read. A new definition of “non-motorised transport” is inserted as the Act is amended to provide more clearly for this concept. The definition of “integrated public transport network” is amended to make it clearer that such networks include integrated rapid public transport networks (IRPTNs) and Bus Rapid Transport (“BRT”) systems. Consequential amendments are made to other definitions.

Clause 7 amends section 11 of the Act to provide that municipalities may enter into new contracts for public transport services only where they meet criteria that will be prescribed by the Minister in consultation with the Minister responsible for local government matters. They must also follow procedures that will be prescribed in regulations. Provisions have also been inserted to empower provinces to intervene, and if necessary enter into the contracts themselves, where municipalities do not comply with the prescribed requirements or criteria.

National will be empowered to enter into the contracts which it will only do in exceptional circumstances where there are gaps and services are urgently required.

The powers of municipalities over financial planning of public transport are amended so that they will be exercised in consultation with state owned rail operators (PRASA and Transnet) in the case of rail matters.

The power of the Minister to assign the function of managing the “old order contracts” concluded under the Transition Act to municipalities is amended to provide that provinces will continue to manage them until new contracts are concluded under the Act, either by municipalities if they meet the prescribed criteria or by the province.

Section 11 is also amended to facilitate the process of converting the public transport contracts concluded under the previous Transition Act into new contracts. Other consequential amendments are also made to section 11.

In terms of the amendment a province may pass legislation as well. The amendment further gives new responsibilities to the province, amongst others the province would be responsible for the promotion and support of non-motorised transport and any other function which may be agreed upon by the province and the municipality who are members of a provincial entity.

2.11 Clause 11: Amendment of section 17 of Act 5 of 2009

Clause 11 effects a consequential amendment to section 17 of the Act.

Clause 14 amends section 21 of the Act , to include additional functions of the NPTR. In terms of the amendment the NPTR is required to keep information on minibus taxi associations and their members in relation to interprovincial transport, and on the routes operated by the various associations. The NPTR is also empowered to issue written request to PREs, MREs and planning authorities that are not fulfilling their obligations under the Act or as an alternative the NPTR may request the Minister to issue directives under section 5(6).

2.15 Clause 15: Amendment of section 23 of Act 5 of 2009

Clause 15 amends section 23 of the Act to rationalise the appointment of members of Provincial Regulatory Entities (PREs) to bring the section in line with section 20 on the appointment of NPTR members and to promote standardisation of PRE structures throughout the country. Clause 19 amends section 36 of the Act to provide that in checking municipal ITPs, the MEC must ensure that other organs of state, e.g. SANRAL and ACSA, that are involved in provincial planning have followed the correct procedures etc. A paragraph is also deleted to remove duplication.

2.20 Clause 20: Amendment of section 39 of Act 5 of 2009

Clause 20 amends section 39 of the Act to provide that planning authorities must, before rationalising services on routes, first apply law enforcement measures to prevent illegal operations and take steps under section 78 of the Act to cancel operating licences and permits that are not in use. At the request of Nedlac the options for planning authorities to take have been broadened so as not to be limited to the options currently in the Bill. The section is also amended to require that the planning authority must first consult with affected operators before taking those actions.

2.21 Clause 21: Amendment of section 41 of Act 5 of 2009

Clause 21 amends section 41 of the Act to insert various provisions that are currently found in the 2009 Regulations on Contracting for Public Transport Services that were made under the Act. With reference to the requirement that negotiated contracts may be concluded “once only”, the amendment clarifies that one or more such contracts or a combination thereof may be concluded. Different contracts may be concluded with different operators on different routes, and the services may be increased or amended in a phased manner. They may also enter into stopgap contracts — see the notes on the new section 41A below. Procedures on making offers to incumbent operators that are contained in the regulations are inserted in the Act to avoid possible disputes and court challenges.

The power of the Minister in section 42 to prescribe requirements and provide model tender and contract documents for public transport service contracts is also extended to negotiated contracts under section 41.

2.22 Clause 22: Insertion of new section 41A in Act 5 of 2009

Clause 22 inserts a new section on stopgap contracts which may be concluded to ensure continuity of service while the municipality or province is negotiating with incumbent operators, or to cover situations where an incumbent operator ceases to operate. These contracts will be for a maximum of three years, which will not eat into the 12 year period allowed for the negotiated contracts that will be concluded.

2.23 Clause 23: Amendment of section 42 of Act 5 of 2009

Clause 23 amends section 42 of the Act to make the tendering requirement subject to section 80(1)(a) of the Municipal Systems Act, 2000 (Act No. 32 of 2000), which provides that where a municipality has established a municipal entity (ME) to provide services, it is not required to put the services out to tender but may conclude a negotiated contract with the ME.

The power of the Minister to prescribe requirements and provide model tender and contract documents for public transport service contracts is amended to provide that the Minister may make them binding on contracting authorities.

2.24 Clause 24: Amendment of section 43 of Act 5 of 2009

Clause 24 amends section 43 of the Act on commercial services contracts to make the tendering requirement subject to section 80(1)(a) of the Municipal Systems Act (see 2.21 above).

2.25 Clause 25: Repeal of section 45 of Act 5 of 2009

Clause 25 repeals section 45 of the Act. The requirements and restrictions regarding municipal operators are no longer relevant because the Municipal Systems Act (MSA), allows a municipality to contract with MEs established by it and the issue is adequately regulated by the MSA and Municipal Finance Management Act, 2003 (Act No. 56 of 2003), (“MFMA”). Also, municipalities and municipal entities may not tender for services in areas outside of the area of jurisdiction of the municipality except in limited circumstances that are regulated by other legislation.

2.26 Clause 26: Amendment of section 46 of Act 5 of 2009

Clause 26 amends section 46 of the Act to provide that provinces or municipalities may negotiate with incumbent operators in the case of existing interim bus contracts, according to which of them is the contracting authority as determined by section 11 and regulations to be prescribed by the Minister.

The requirement to refer disputes in respect of interim contracts to mediation or arbitration is deleted, because court actions have shown that it is better to resolve disputes by normal court procedures. The parties to a dispute are free in any event to subject the matter to mediation or arbitration if they both agree. Also, the issue is dealt with by the terms and conditions of the relevant contract.

2.27 Clause 27: Amendment of section 47 of Act 5 of 2009

Clause 27 amends section 47 of the Act to extend the provisions on the conversion of permits to operating licences (OLs) that were issued under the Transition Act for a period not longer than seven years. The section is also amended to make it clearer that when an operator applies for renewal, amendment or transfer of a permit, there must be a simultaneous application for conversion of the permit. New provisions are inserted to empower the Minister to make regulations on procedures for conversion. Subsection (5) which prohibits the payment of subsidies to operators whose permits have not been converted is deleted, because of delays being experienced with the conversion process (the subsection was never brought into operation).

2.28 Clause 28: Amendment of section 48 of Act 5 of 2009

Clause 28 amends section 48 of the Act to remove the requirement that where the Minister makes regulations to integrate non-contracted scheduled services and convert them to commercial service contracts this must be done within two years. The process of doing so is expected to take much longer.

2.29 Clause 29: Amendment of section 49 of Act 5 of 2009

Clause 29 amends section 49 of the Act to clarify its provisions. The requirements that the planning authority must approve and that the replacing vehicle may not be more than 20% larger have been removed because these aspects are already covered by the Department’s requirements for recapitalisation. Subsection (3) is deleted because its provisions are already covered by section 47 and have been creating some confusion.

A consequential amendment is also made to subsection (2).

2.32 Clause 32: Amendment of section 54 of Act 5 of 2009

Clause 32 amends section 54 of the Act to limit applications made to MREs to services that will be provided entirely within the area of jurisdiction of the relevant municipality.

2.33 Clause 33: Amendment of section 56 of Act 5 of 2009

Clause 33 amends section 56 of the Act to provide that where a stopgap contract referred to above has been concluded, OLs must be issued to the operator to enable him/her to implement the contract, as is the case with other contracts concluded with contracting authorities.

2.34 Clause 34: Amendment of section 57 of Act 5 of 2009

Clause 34 amends section 57 of the Act to include two paragraphs that should have been included in the Act and to provide that regulatory entities must also take into account the fact that the applicant for an OL may have infringed codes of conduct that are prescribed by the Minister.

2.37 Clause 37: Amendment of section 62 of Act 5 of 2009

Clause 37 amends section 62 of the Act to delete the requirement that proof of insurance must be provided when an OL is issued, due to the 2008 amendment of section 21 of the Road Accident Fund Act, 1996 (Act No. 56 of 1996), providing that claims can no longer be brought against the owner or driver of a motor vehicle for death or personal injury.

2.38 Clause 38: Amendment of section 64 of Act 5 of 2009

Clause 38 amends section 64 of the Act to create an exception to the rule that an OL may only be issued to the registered owner or operator of the relevant vehicle, in the case of accredited tourist operators where they hire or use vehicles that comply with section 84.

Clause 39 amends section 66 of the Act to provide that the Minister may prescribe requirements and standards for meters to be installed in metered taxis. The meter must also have the facility to estimate distances and fares.

2.44 Clause 44: Amendment of section 74 of Act 5 of 2009

Clause 44 amends section 74 of the Act to provide that an operator can replace a vehicle temporarily under an OL or permit also where the vehicle has been sold, stolen or destroyed and the operator is in the process of obtaining a replacement vehicle.

2.45 Clause 45: Amendment of section 75 of Act 5 of 2009

Clause 45 amends section 75 of the Act to delete subsection (3), as this provision should more appropriately be included in the Cross-Border Road Transport Act, 1998 (Act No. 4 of 1998).

2.46 Clause 46: Amendment of section 79 of Act 5 of 2009

Clause 46 amends section 79 of the Act to correct an omission and to provide that a regulatory entity may also withdraw, amend or suspend an OL or permit where the operator has contravened the Act or the National Road Traffic Act or has infringed codes of conduct that are prescribed by the Minister.
