FURTHER BUSINESS

NOTICES OF MOTION

1. Ms D M Baartman: That the House debates the impact of the COVID-19 pandemic and the COVID-19 regulations on the Western Cape economy, and efforts to save jobs.

2. Ms R Windvogel: That the House, having noted recent developments in the province – including over 10 000 COVID-19 cases, 183 deaths and 440 people in hospital, of which 128 are in ICU or high care – urgently debates the handling of COVID-19 outbreak by the Western Cape Government.

3. Mr R I Allen: That the House debates the influx of cases of police brutality and heavy-handedness in the enforcement of the lockdown regulations, and the impact it has on the residents of the Western Cape.

4. Mr A P van der Westhuizen: That the House debates the impact of COVID-19 on food security in the Western Cape, and the regulations made and support provided in this regard.

5. Mr L L Mvimbi: That the House notes with concern and condemns with the strongest contempt the reckless utterances by Bonginkosi Madikizela, DA provincial leader, who on Sunday called for the province to be moved down to level 3 because the number of infections in the Western Cape occurred under level 5 and 4 of the lockdown, that death is something that will visit all of us at some stage, and that we can't stop living our lives because we are scared; and debates the calls for the province to move down to level 3.

6. Mr P J Marais: That the House debates the efficacy and sustainability of the Cape Agency for Sustainable Integrated Development in the Rural Areas (Casidra) with special emphasis on job creation, food security and the empowerment of emerging farmers; and considers requesting a thorough investigation by the Western Cape Service Commission in this regard and asks that its report be tabled in this House within six months.

7. Ms P Z Lekker: That the House debates the many successes by the SAPS in its battle with abalone and marine poaching in the Western Cape.

8. Ms A Bans: That the House discusses the failure of the Western Cape Department of Social Development to maintain safe social distances between poor visitors in and around its offices.

9. Mr G Bosman: That the House condemns the national Department of Social Development's attempt to centralise the distribution of cooked food and to control nutrition programmes being run in communities across the country; and further notes that the South African Human Rights Commission (SAHRC) has labelled this a violation of human rights after the Democratic Alliance lodged a complaint against the national Department.

10. Ms A Bans: That the House notes that the Central Karoo District Municipality flouts honourable Minister Anton Bredell's instruction to host virtual video meetings, that DA mayor Annelie Rabie calls regular contact meetings and rakes in subsistence and travel allowance by almost daily commuting between Prince Albert and Beaufort West; and calls on the Minister to investigate and urgently report to the legislature on this matter.

11. Mr R I Allen: That the House notes the commemoration of the International Day against Homophobia, Transphobia and Biphobia on 17 May 2020; and supports events to raise awareness of the violation of LGBT rights in the Western Cape.

12. Ms R Windvogel: That the House notes the overloading of hospitals and health staff's large workloads due to the serious COVID-19 contamination; and requests that honourable Minister Nomafrench Mbombo reports to this legislature on the current situation and readiness ahead of a possible upsurge in cases.

13. Ms N D Nkondlo: That the House notes and laments the poor services delivered to informal traders in townships and the absence of an inclusive database of all informal traders in the City of Cape Town despite the City having the highest concentration of informal traders in the province; notes further that this has led to the exclusion of and difficulties for informal traders to trade with businesses for essential services and goods during the lockdown as the City, supported by this provincial government, flatly refused to issue permits to these traders as the City chose those to whom it referred to as "suitably vetted" pre-COVID-19; condemns this practice as it further entrenches the inequality that exists in this province and as it further perpetuates the inequality by keeping informal traders out of the economy with such abuse and misuse of regulations; and calls for enhanced efforts, similar to the City's and DEDAT's investments in urban markets, such as in Sea Point, Woodstock and in the CBD.

14. Mr M K Sayed: That the House notes that Roberto Quintas, ward councillor of Hout Bay, has downplayed Hout Bay as a COVID-19 hotspot as identified by the Western Cape Government; and notes that he actually undermined the Premier and the provincial government by releasing a statement stating that the provincial government provided the wrong statistics for Hout Bay.
