Update on the supply of Tuberculin PPD RT23 Reg No (28/30.3/0356): Contract No: HP10-2012BIO

We refer to our previous letter dated 24 March 2014 regarding the supply situation for the above product. Unfortunately to this date, the supply situation has not improved and we still do not have any stock available to supply the product.

As there is currently only one Tuberculin PPD product registered in South Africa, we are working on sourcing an alternative product and are exploring all possible ways to bring the alternative product as soon as we possibly can.

Yours Sincerely

Shupu Phoshoko
