### **1. Opening and Welcome**

The Chairperson opened the meeting and welcomed the members of the Committee and the Departmental officials.

### **2. Briefing by the Department of Transport and Public Works on the challenges with aligning the Department's sector plans with municipal IDP's, and SDF's**

The Department proceeded with a briefing on the challenges with aligning the Department's sector plans with municipal IDP's, and SDF's.

Ms J Gooch, Head of Department highlighted that IDPs generally lack a long-term development trajectory and current intergovernmental planning structures does not address the mis-alignment timeously. Provincial Departments essentially operate in 'isolation' from one another and take a sectoral approach to planning and delivery of infrastructure. There is a need for a systematic process which results in a long term (5 – 10 year) integrated provincial infrastructure pipeline to be developed where longer-term infrastructure projects, as derived from the U-AMPs and C-AMPS, can be tabled for discussion.

The Committee deliberated.

### **3. Briefing on the Provincial Property Committee's Annual Report for 2018 and the Premier's Annual Report for 2018 relating to provincial state land.**

Ms J Gooch, Head of Department briefed the Committee on the Provincial Property Committee's Annual Report for 2018 and the Premier's Annual Report for 2018 relating to provincial state land.
