MEMORANDUM ON THE OBJECTS OF THE WESTERN CAPE PROVINCIAL TRANSPORT INFRASTRUCTURE BILL

1. BACKGROUND

- 1.1 The Western Cape Transport Infrastructure Act, 2013 (Act 1 of 2013) (the Act), was assented to by the Premier on 3 April 2013, but to date has not been brought into operation. This Act was intended to replace the existing legislation dealing with declared roads in the Province, namely the Roads Ordinance, 1976 (the Ordinance), and the Advertising on Roads and Ribbon Development Act, 1940 (Act 21 of 1940) (the ARRDA).
- 1.2 During the course of drafting of regulations that were necessary for the Act to be brought into operation, amendments to the Act were found to be necessary, including technical amendments and developments addressing difficulties with the provision of service infrastructure that have an impact on roads. The Draft Western Cape Transport Infrastructure Amendment Bill, 2017 (the Amendment Bill), was accordingly drafted to deal with these issues and was published for comment. The Amendment Bill, after further consideration and with due regard to the comments received, was found to be too cumbersome. Hence it was decided to prepare a new Western Cape Transport Infrastructure Bill, 2021 (the Bill), which will, on enactment, repeal the Act, the Ordinance and the ARRDA.

2. OBJECTS OF BILL

- 2.1 Once in operation, the Bill will allow the Province to administer its provincial roads, railway lines and ancillary transport infrastructure in terms of a new legislative framework. Procedures are incorporated in the Bill that will allow for the declaration of provincial roads, railway lines and ancillary transport infrastructure, and for planning, expropriation, construction, management, control and maintenance of such transport infrastructure.
- 2.2 The scope of the Act and the Bill extends beyond that covered by the Ordinance and the ARRDA, insofar as the former makes provision for the declaration of public transport infrastructure, such as heavy or light rail systems and high-order public transport roads for bus-rapid-transit-type systems. The Act and the Bill also make provision for a planning process that must take place in specified circumstances, including the declaration of roads and when roads are altered or relocated. The Act recognises that the declaration, construction and management of roads have an impact on related functional areas, including land-use planning and the environment, and contemplates a cooperative approach with other affected organs of state and functionaries.
- 2.3 The principal changes incorporated in the Bill in relation to the Act involve provisions that will allow for the joint administration of municipal roads of joint municipal and provincial significance (roads of joint significance) by the relevant municipality and the Province. Roads of joint significance essentially form the higher-order road network of municipalities and are roads which were declared by the Administrator and are jointly managed by municipalities and the Province under the Ordinance. They are owned by municipalities, subsidised by the Province and form an integral and critical component of the provincial road network. Broad criteria are now also included in the Bill that are intended to guide the Province and municipalities in determining how roads are to be classified as either provincial roads or municipal roads going forward. New technical provisions are also included in the Bill that will better facilitate the reassessment of previously declared roads to determine the appropriateness of the existing road authority and to reclassify them accordingly, and to reassess the categorisation of the roads. Deeming provisions are included, and a deadlock-breaking mechanism in the joint assessment process, provided in the event of the failure of the Province and

relevant municipality to agree on the classification and categorisation of roads or related matters subject to the assessment.

- 2.4 The Bill also includes provisions that will empower the Province in some instances to assist municipalities with the execution of their task of managing their roads of joint significance. Insofar as activities on these roads may have a direct impact on the provincial road network, the Bill requires the Province and the municipality who is the responsible authority for the road to reach agreement on specified matters such as construction activities, the relocation and alteration of, and the construction of new and amended interchanges on, these roads prior to the activity commencing if the activity concerned is likely to have an adverse impact on provincial traffic and provincial transport operations. This is required to be done in accordance with the principles of cooperative governance. The Bill furthermore, for the same reason, prohibits certain specified activities on roads of joint significance (such as construction of accesses, the erection of structures and the installation of service infrastructure) by all persons without the prior written permission of the Head of Department, based on the impact of the activity on provincial traffic and provincial transport operations. The permission of the Head of Department is additional to any necessary permission required to be obtained from the relevant municipality. It is noted that “municipal roads” in the Bill refer to what have been historically known as “streets”, and, insofar as these roads are a municipal function only, they are not directly regulated in the Bill. The Department has, however, initiated a process to produce standard draft by-laws regulating municipal roads, roads of joint significance and the display of advertising signs, which municipalities will be encouraged to adopt as appropriate.
- 2.5 New provisions are also included in the Bill regulating the provision of service infrastructure in roads, including telecommunications cables and pipelines for water, gas, oil and other services, and further technical adjustments.

3. CONTENTS OF BILL

- 3.1 **Clause 1** provides for a comprehensive set of definitions and related technical matters.
- 3.2 **Clause 2** provides that the Provincial Minister and the Head of Department must undertake the functions of the financing, planning, declaration, design, construction, development, maintenance, control, management, regulation, upgrading, protection and rehabilitation of transport infrastructure in the Province, and for a municipality to undertake the same functions regarding municipal roads, roads of joint significance and ancillary road infrastructure under its control and in its area of jurisdiction.
- 3.3 **Clause 3** provides that the Provincial Minister must ensure that certain key technical functions in terms of the Bill are performed only under the responsibility and due diligence of a suitably qualified professional person. This clause furthermore provides that the Head of Department must ensure that the Department’s staff establishment includes professional engineers or town planners having the necessary competence for the purpose of supervising these activities.
- 3.4 **Clause 4** provides for technical matters pertaining to the vesting of ownership and title to land on which transport infrastructure is located, including the acquisition and disposal of land necessary for transport infrastructure.
- 3.5 **Clause 5** establishes the classification system to be applied to roads, separating them into provincial roads, municipal roads and roads of joint significance and provides for broad criteria to be used in the classification process.

- 3.6 **Clause 6** provides more detail on roads of joint significance and, in particular, the process for the declaration of such roads by the Provincial Minister and the withdrawal of such declaration.

5. PERSONNEL IMPLICATIONS

There will be no personnel implications arising from the replacement of the Ordinance and the ARRDA by the Bill or by the repeal of the Act.

6. FINANCIAL IMPLICATIONS

6.1 As indicated in paragraph 5, the implementation of the Bill and the repeal of the Ordinance, the ARRDA and Act 1 of 2013 will not require the introduction of new operational components to the Department that would have consequent increases in professional and other staff. In this respect the Bill will not place new financial implications on the departmental budget. There are, however, new processes introduced by the Bill (as were also introduced by Act 1 of 2013) that will have financial implications, but which will be minimal in relation to the departmental approximately R4 billion annual budget and will be accommodated without motivating for additional budget. The implications are as follows:

6.2 Administering roads of joint significance in conjunction with the municipalities (clauses 9 and 10) — these procedures will entail ensuring that municipalities undertake management actions on their roads of joint significance and monitoring compliance. Much of the work in monitoring compliance in respect of actions taken on these roads and engagements with municipalities already occurs at an operational level in the Department under the Ordinance.

6.3 Undertaking the assessment of previously declared roads (clause 11) — this will be a one-off process of assessing the 32 000 km of declared provincial roads that will lead to transferring roads to the appropriate road authority where some roads are retained by the Province and some are transferred to municipalities according to the function of the roads and the relative capacity of the relevant municipalities. This process is underway in the City of Cape Town, and consultants will continue to assist the Province in undertaking the process in other municipalities.

6.4 Compiling and updating the list and associated database of transport infrastructure (clause 19) — much of the data required to develop the list and database already exists in the Departmental RNIS database, and compliance with clause 19 will largely require reformatting and adding existing records located in various systems to bring all information into a consolidated system.

6.5 Payment of road subsidy to municipalities for management of roads of joint significance (clauses 28 to 31) — the road subsidy provisions of the Bill, supplemented by the Regulations, will replace provisions of the Ordinance under which the Department has for many years subsidised proclaimed main roads (in the Bill renamed roads of joint significance). The Department currently budgets approximately R100 million annually toward the subsidy payments. The payment of subsidy to municipalities is subject to assessment by the Department and within the available financial resources of the Department.

7. LEGISLATIVE COMPETENCE

The Provincial Minister responsible for transport and public works is satisfied that the provisions of the Bill fall within the legislative competence of the Province.

MEMORANDUM OOR DIE OOGMERKE VAN DIE WES-KAAPSE WETSONTWERP OP PROVINSIALE VERVOERINFRASTRUKTUUR

1. AGTERGROND

- 1.1 Die Wes-Kaapse Wet op Vervoerinfrastruktuur, 2013 (Wet 1 van 2013) (die Wet), is op 3 April 2013 deur die Premier bekragtig, maar tot op hede is dit nie in werking gestel nie. Hierdie Wet was bedoel om die bestaande wetgewing wat met verklaarde paaie in die Provinsie handel, naamlik die Ordonnansie op Paaie, 1976 (die Ordonnansie), en die Wet op Adverteer langs en Toebou van Paaie, 1940 (die WALTP), te vervang.
- 1.2 Gedurende die opstel van regulasies wat nodig was om die Wet in werking te stel, is daar bevind dat wysigings aan die Wet nodig is, insluitende tegniese wysigings en ontwikkelings wat die probleme met die verskaffing van diensinfrastruktuur wat 'n uitwerking op paaie het, die hoof bied. Die Wes-Kaapse Wysigingswetsontwerp op Vervoerinfrastruktuur, 2017 (die Wysigingswetsontwerp), is dienooreenkomstig opgestel om hierdie kwessies die hoof te bied en is vir kommentaar gepubliseer. Ná verdere oorweging en met behoorlike inagneming van die kommentaar wat ontvang is, is die Wysigingswetsontwerp te omslagtig gevind. Vervolgens is daar besluit om 'n nuwe Wes-Kaapse Wetsontwerp op Vervoerinfrastruktuur, 2021 (die Wetsontwerp), op te stel, wat, wanneer dit in werking tree, die Wet, die Ordonnansie en die WALTP sal herroep.

2. OOGMERKE VAN WETSONTWERP

- 2.1 Wanneer die Wetsontwerp in werking tree, sal dit die Provinsie in staat stel om sy provinsiale paaie, spoorlyne en bykomstige vervoerinfrastruktuur ingevolge 'n nuwe wetgewende raamwerk te administreer. Prosedures is by die Wetsontwerp ingewerk wat die verklaring van provinsiale paaie, spoorlyne en bykomstige vervoerinfrastruktuur en die beplanning, onteiening, konstruksie, bestuur, beheer en instandhouding van sodanige vervoerinfrastruktuur sal toelaat.
- 2.2 Die omvang van die Wet en die Wetsontwerp strek weier as wat die Ordonnansie en die WALTP dek, vir sover eersgenoemde voorsiening maak vir die verklaring van openbarevervoerinfrastruktuur, soos swaar of ligte spoorstelsels en hoë-orde-openbarevervoerpaaie vir snelbusvervoer-tipe stelsels. Die Wet en die Wetsontwerp maak ook voorsiening vir 'n beplanningsproses wat in bepaalde omstandighede moet plaasvind, insluitende die verklaring van paaie en wanneer paaie verander of verskuif word. Die Wet erken dat die verklaring, konstruksie en bestuur van paaie 'n impak op verwante funksionele gebiede het, insluitende grondgebruikbeplanning en die omgewing, en beoog 'n samewerkende benadering met ander geraakte staatsorgane en funksionarisse.
- 2.3 Die hoofveranderinge wat by die Wetsontwerp ingewerk is met betrekking tot die Wet, behels bepalings wat vir die gesamentlike administrasie van munisipale paaie van gemeenskaplike munisipale en provinsiale belang (paaie van gemeenskaplike belang) deur die betrokke munisipaliteit en die Provinsie voorsiening maak. Paaie van gemeenskaplike belang maak hoofsaaklik die hoë-ordepadnetwerk van munisipaliteite uit en is paaie wat die Administrateur verklaar het en wat kragtens die Ordonnansie gesamentlik deur munisipaliteite en die Provinsie bestuur word. Hulle word deur munisipaliteite besit, deur die Provinsie gesubsidieer en is 'n integrale en kritieke komponent van die provinsiale padnetwerk. Breë maatstawwe word nou by die Wetsontwerp ingesluit met die doel om vir die Provinsie en munisipaliteite in die toekoms as gids te dien by die bepaling van hoe paaie geklassifiseer moet word as óf provinsiale paaie óf munisipale paaie. Nuwe tegniese bepalings word ook by die Wetsontwerp ingesluit wat die herevaluering van voorheen verklaarde paaie beter sal fasiliteer om die geskiktheid van die bestaande padowerheid te bepaal en hulle dienooreenkomstig te herklassifiseer, en die kategorisering

van die paaie te herevalueer. Beskouingsbepalings word ingesluit en 'n meganisme om dooiepunte by die gesamentlike evalueringsproses op te los, waarvoor voorsiening gemaak word in die geval waar die Provinsie en die betrokke munisipaliteit nie ooreenstem oor die klassifikasie en kategorisering van paaie of verwante aangeleenthede onderhewig aan die evaluering nie.

- 2.4 Die Wetsontwerp sluit ook bepalings in wat in sekere gevalle die Provinsie sal bemagtig om munisipaliteite by te staan met die uitvoering van hul taak om hul paaie van gemeenskaplike belang te bestuur. Vir sover aktiwiteite op hierdie paaie 'n direkte impak op die provinsiale padnetwerk kan hê, vereis die Wetsontwerp dat die Provinsie en die munisipaliteit wat die verantwoordelike owerheid vir die pad is, ooreenstemming bereik oor bepaalde aangeleenthede soos konstruksieaktiwiteite, die verskuiwing en verandering van en die konstruksie van nuwe en veranderde wisselaars op hierdie paaie voordat die aktiwiteit begin indien die betrokke aktiwiteit waarskynlik 'n negatiewe impak op provinsiale verkeer en provinsiale vervoerbedrywighede sal hê. Dit moet ooreenkomstig die beginsels van samewerkende regering geskied. Die Wetsontwerp, om dieselfde rede, verbied verder sekere bepaalde aktiwiteite op paaie van gemeenskaplike belang (soos die bou van toegange, die oprigting van strukture en die installering van diensinfrastruktuur) deur alle persone sonder die vooraf verkreeë skriftelike toestemming van die Departementshoof, gegrond op die impak van die aktiwiteit op provinsiale verkeer en provinsiale vervoerbedrywighede. Die toestemming van die Departementshoof is bykomend tot enige nodige toestemming wat van die betrokke munisipaliteit verkry moet word. Let daarop dat "munisipale paaie" in die Wetsontwerp geskiedkundig as "strate" bekend staan en, vir sover hierdie paaie slegs 'n munisipale funksie is, word hulle nie direk deur die Wetsontwerp gereguleer nie. Die Departement het egter 'n proses begin om standaardkonsepsverordeninge op te stel wat munisipale paaie, paaie van gemeenskaplike belang en die vertoon van advertensietekens, wat munisipaliteite aange-moedig sal word om soos gepas aan te neem.
- 2.5 Nuwe bepalings word ook in die Wetsontwerp ingesluit om die verskaffing van diensinfrastruktuur op paaie te reguleer, insluitende telekommunikasiekabels en pypleidinge vir water, gas, olie en ander dienste, en verdere tegniese aanpassings.

5. PERSONEELIMPLIKASIES

Daar sal geen personeelimplikasies uit die vervanging van die Ordonnansie en die WALTP deur die Wetsontwerp of die herroeping van die Wet ontstaan nie.

6. FINANSIËLE IMPLIKASIES

- 6.1 Soos aangedui in paragraaf 5 sal die implementering van die Wetsontwerp en die herroeping van die Ordonnansie, die WALTP en Wet 1 van 2013 nie die inbring van nuwe bedryfskomponente in die Departement teweegbring wat tot 'n gevolglike toename in professionele en ander personeel sal lei nie. In hierdie opsig sal die Wetsontwerp nie nuwe finansiële implikasies vir die departementele begroting inhou nie. Die Wetsontwerp stel egter nuwe prosesse bekend (soos ook by Wet 1 van 2013 bekendgestel is) wat finansiële implikasies sal hê, maar wat minimaal sal wees in verhouding tot die jaarlikse departementele begroting van ongeveer R4 miljard en geakkommodeer sal word sonder dat daar vir bykomende begrotings gemotiveer hoef te word. Die implikasies is soos volg:

- 6.2 Die administrasie van paaie van gemeenskaplike belang in samewerking met munisipaliteite (klousules 9 en 10) — hierdie prosedures sal behels om toe te sien dat munisipaliteite bestuursoptrede ten opsigte van hul paaie van gemeenskaplike belang onderneem en om nakoming te monitor. Baie van die werk van die monitering van nakoming ten opsigte van optrede wat op hierdie paaie geneem word, en interaksie met munisipaliteite vind reeds op 'n bedryfsvlak plaas in die Departement kragtens die Ordonnansie.
- 6.3 Die onderneming van die evaluering van voorheen verklaarde paaie (klousule 11) — dit sal 'n eenmalige proses wees wat die 32 000 km verklaarde Provinsiale paaie evalueer wat tot die oordrag van die paaie na die gepaste owerheid sal lei, waar sommige paaie deur die Provinsie behou word en sommige na munisipaliteite oorgedra word ooreenkomstig die funksie van die paaie en die relatiewe kapasiteit van die betrokke munisipaliteite. Hierdie proses is aan die gang in die Stad Kaapstad, en konsultante sal voortgaan om die Provinsie by te staan by die onderneming van die proses in ander munisipaliteite.
- 6.4 Die opstel en bywerking van die lys en gepaardgaande databasis van vervoerinfrastruktuur (klousule 19) — baie van die data wat nodig word om die lys en databasis te ontwikkel, bestaan reeds in die Departement se RNIS-databasis, en nakoming van klousule 19 sal grootliks die herformatering en byvoeging van bestaande rekords geleë in verskeie stelsels vereis om alle inligting na 'n gekonsolideerde stelsel te bring.
- 6.5 Betaling van padsubsidies aan munisipaliteite vir die bestuur van paaie van gemeenskaplike belang (klousules 28 tot 31) — die padsubsidiebepalings van die Wetsontwerp, aangevul deur die regulasies, sal bepalinge van die Ordonnansie vervang, waarkragtens die Departement vir baie jare geproklameerde hoofpaaie (in die Wetsontwerp hernoem tot paaie van gemeenskaplike belang) gesubsidieer het. Die Departement begroot tans jaarliks ongeveer R100 miljoen vir die subsidiebetalinge. Die betaling van subsidie aan munisipaliteite is onderhewig aan evaluering deur die Departement en geskied binne die beskikbare finansiële hulpbronne van die Departement.

7. WETGEWENDE BEVOEGDHEID

Die Provinsiale Minister verantwoordelik vir vervoer en openbare werke is tevrede dat die bepalinge van die Wetsontwerp binne die wetgewende bevoegdheid van die Provinsie ressorteer.

IMEMORANDAM ENGEENJONGO ZOMTHETHO OSAYILWAYO WEZIBONELELO ZOTHUTHO WEPHONDO LENTSHONA KOLONI

1. IMVELAPHI

- 1.1 UMthetho weZibonelelo zoThutho weNtshona Koloni, ka-2013 (uMthetho woku-1 ka-2013)(uMthetho), wamkelwa yiNkulumbuso ngowesi-3 kuTshaziimpunzi ka-2013, kodwa ukuza kuthi ga ngoku awuzange usebenze. Lo Mthetho wayejonge ukuthatha indawo yomthetho okhoyo ohambelana neendlela ezichaziweyo kwiPhondo, uMmiselo weeNdlela, ka-1976 (uMmiselo), kunye neNtengiso yeeNdlela kunye noMthetho woPhuhliso lweRibbon, ka-1940 (i-ARRDA).
- 1.2 Ngeli xesha lokuqulunqwa kwemigaqo eyayimfuneko ukuze lo Mthetho ungeniswe, izilungiso kuMthetho kwafunyaniswa ukuba ziyimfuneko, kubandakanya nolungiso lobuchwephesha kunye nophuhliso olujongene nobunzima ngokubonelelwa kweziseko zenkonzo ezinefute ezindleleni. UQulunqo loMthetho weZibonelelo zoThutho weNtshona Koloni, ka-2017 (UMthetho oSayilwayo woLungiso), wabhalwa ukuze uhlangane nale micimbi kwaye wapapashwa ukuze kuhlomlwe kuwo. UMthetho oSayilwayo woLungiso emva kokuqwalaselwa ngakumbi kunye nokuqwalaselwa kwezimvo ezifunyenweyo kuye kwafunyanwa kungummangaliso kakhulu kwaye ke kwagqitywa ekubeni kulungiswe uMthetho oSayilwayo weZibonelelo zoThutho weNtshona Koloni, ka-2020 (UMthetho oSayilwayo) oya kuthi, ngokwenza umthetho, ukurhoxisa uMthetho, ummiselo kunye ne-ARRDA.

2. IINJONGO ZALO MTHETHO OSAYILWAYO

- 2.1 Nje ukuba usebenze, uMthetho oSayilwayo uza kuvumela iPhondo ukuba lilawule iindlela zalo zephondo, imizila kaloliwe kunye nezinye izibonelelo zezithuthi ezongezelekileyo ngokwesikhokelo somthetho omtsha, iinkqubo zibandakanyiwe kuMthetho oSayilwayo oza kuvumela ukubhengezwa kweendlela zephondo, nemizila kaloliwe kunye nezibonelelo zezothutho ezixhasayo, nokucwangciswa, ukuthuthwa, ukwakhiwa, ukulawulwa, ukulawulwa kunye nokugcinwa kwezibonelelo zothutho.
- 2.2 Ubungakanani boMthetho kunye noMthetho oSayilwayo udlulela ngaphaya koko kugutyungelwe nguMmiselo kunye neARRDA, nangona besenza ukubhengezwa kwezibonelelo zothutho lukawonkewonke, ezinjengomzila kaloliwe onzima okanye omncinci kunye neendlela eziphezulu zothutho loluntu zohlobo lweenkqubo zohlobo lweebhasi ezikhawulezayo. UMthetho noMthetho oSayilwayo zenza nesibonelelo senkqubo yokucwangcisa ekufuneka yenzeke kwiimeko ezichaziweyo kubandakanya ukubhengezwa kweendlela naxa iindlela zitshintshiwe okanye zisiwa kwenye indawo. UMthetho uyayiqonda into yokuba ukubhengezwa, ukwakhiwa nokulawulwa kweendlela kunempembelelo kwiindawo ezinemisebenzi, kubandakanya ukucwangciswa kokusetyenziswa komhlaba kunye nokusingqongileyo, kwaye kujonge indlela yentsebenziswano namanye amaziko orhulumente anefute.
- 2.3 Utshintsho oluphambili olubandakanyiwe kuMthetho oSayilwayo ngokuhambelana noMthetho lubandakanya izibonelelo eziya kuvumela ulawulo lweendlela zikamasipala ngokudibeneyo komasipala kunye nephondo (iindlela ezidibeneyo) ngokudibeneyo ngumasipala ochaphazelekayo nePhondo. Iindlela ezidibeneyo zisisiseko zendlela yothungelwano oluphezulu loomasipala kwaye zizindlela ezazibhengezwe nguMlawuli kwaye zilawulwa ngokudibeneyo ngoomasipala kunye nePhondo phantsi koMmiselo. Zezoomasipala kwaye baxhaswa liPhondo kwaye bayinxalenye ebalulekileyo yendlela yephondo. Inkqubo ebanzi ngoku ikwabandakanyiwe kuMthetho oSayilwayo ojolise ekukhokeleni iPhondo noomasipala ekuqinisekiseni ukuba iindlela zodweliswa njani njengeendlela zephondo okanye iindlela zikamasipala ukuya phambili. Amalungiselelo amatsha

obuchwephesha sele ebandakanyiwe kuMthetho oSayilwayo oya kuthi uququzelele ukuqinisekiswa ngokutsha kweendlela ezazichaziwe ngaphambili zokuqinisekisa ukulunga kweendlela esele zikho kwaye ziphinde zihlelwe ngokutsha, ziphinde ziqwalaselwe ngokwahlulwahlulwa kweendlela. Izibonelelo zokuthathwa zibandakanyiwe, kunye nendlela yokuvula umda kwinkqubo yokuhlola ngokudibeneyo ebonelelwe kwimeko yokusilela kwePhondo kunye nomasipala ochaphazelekayo ekuvumeni ngokwahlulahlulahlulwa kunye nokuhlelwa kweendlela kunye nemicimbi enxulumene nokuxhomekeka kuvavanyo.

- 2.4 UMthetho oSayilwayo ukwabandakanya nezibonelelo eziya kuxhobisa iPhondo ngamathub ‘athile ukuncedisa oomasipala ekwenzeni umsebenzi wabo wokulawula iindlela zokudityaniswa ngokubalulekileyo. Ngaphandle kokuba imisebenzi kwezi ndlela ichaphazela ngqo uthungelwano lweendlela zephondo, lo Mthetho oSayilwayo ufuna ukuba iPhondo kunye nomasipala onegunya elinoxanduva lwendlela bafikelele kwisivumelwano kwimiba echaziweyo enjengemisebenzi yokwakha, ukufuduswa notshintsho, nolwakihiwo olutsha nolulungisiweyo, kwezi ndlela ngaphambi kokuba kuqalwe ngomsebenzi ukuba umsebenzi ochaphazelekayo unokuba nefuthe elibi kuthutho lwephondo nakwimisebenzi yothutho yephondo. Oku kufuneka kwenziwe ngokwemigaqo yolawulo lwentsebenziswano. Lo Mthetho oSayilwayo ukwangezizathu ezifanayo, uyayithintela imisebenzi ethile echaziweyo kwiindlela ezibaluleke ngokudibeneyo (ezinjengokwakhiwa kweendlela, ukwakhiwa kwezakhiwo kunye nokufakwa kweziseko zoncedo) ngabo bonke abantu ngaphandle kwemvume ebhaliweyo yeNtloko yeSebe, ngokusekwe kwimpembelelo yomsebenzi kuthutho lwephondo nakwimisebenzi yothutho yephondo. Imvume yeNtloko yeSebe yongezwa nakweyiphi na imvume eyimfuneko efunekayo ukuze ifumaneke kumasipala ochaphazelekayo.

Kuyaphawuleka ukuba “iindlela zikamasipala” kuMthetho oSayilwayo zibhekisa kwinto eyayisaziwa njenge “izitalato”, kwaye nangona ezi ndlela zingumsebenzi kamasipala kuphela, azilawulwa ngokuthe ngqo kuMthetho oSayilwayo. Eli Sebe likwaqalise ngenkqubo yokuelisa uyilo olusemgangathweni lwemithetho kamasipala elawula iindlela zikamasipala, iindlela ezidityanelweyo kunye nokuboniswa kweempawu zentengiso apho oomasipala baya kukhuthazeka ukuba bamkele njengoko kufanelekile.

- 2.5 Izibonelelo ezitsha ngoku zibandakanyiwe kuMthetho oSayilwayo olawula ukunikezelwa kweziseko zenkonzo ezindleleni, kubandakanya iintambo zonxibelelwano kunye nemibhobho yamanzi, irhasi, ioyile nezinye iinkonzo kunye nolunye uhlehlengiso lobugcisa.

5. UCHAPHAZELEKO LWABASEBENZI

Akuyi kubakho ziphumo zichaphazela abasebenzi ngenxa yokutshintshwa koMmiselo kunye ne-ARRDA nguMthetho oSayilwayo, okanye ngokuwutshishisa lo Mthetho.

6. UCHAPHAZELEKO KWIMALI

6.1 Njengoko kubonisiwe kumhlathi 5 ongasentla, ukuzalisekiswa koMthetho oSayilwayo kunye nokutshitsiswa koMmiselo weeNdlela, umthetho *iAdvertising of Roads and Ribbon Development Act* nonguMthetho 1 ka-2013 awuyi kufuna lwaziso lwamacandelo amatsha asebenzayo kwiSebe aya kuba nokwanda kwiziphumo zokuba nabasebenzi abazingcali nabanye. Ngale ndlela ke lo Mthetho oSayilwayo awuzukubeka mpembelelo kwezimali kuhlahlomali lweSebe. Nangona kunjalo, kukho iinkqubo ezintsha ezivezwa ngulo Mthetho oSayilwayo (njengoko zazisiwe nguMthetho 1 ka-2013) noza kuba nempembelelo kwezimali, kodwa ezakuba ngaphantsi xa nomlinganiselo omalunga nohlahlomali oluzizigidi ezi-4 zeSebe rhoqo ngonyaka kwaye ziya kulungiselelwa ngaphandle kozathuzo ukwenzela uhlahlomali olongezelelweyo. Oku kubhekisela koku kulandelayo:

6.2 Ukulawula iindlela ezibaluleke ngokuhlangeneyo ngokuhambelana noomasipala (amasolotya 9 & 10) — ezi nkqubo ziya kuquka ukuqinisekisa ukuba oomasipala bathatha amanyathelo olawulo kwiindlela zabo ngokubhekiselele kubaluleko nasekwakhelen' umkhanya uthotyelo. Sele ikhona inkoliso yomsebenzi kwinqanaba lokusebenza ngokubhekisele kubaluleko nasekwakhelen' umkhanya lothotyelo ngokubhekiselele kumanyathelo athathiweyo kwezi ndlela nothethathethwano noomasipala kwiSebe phantsi koMthetho weeNdlela.

- 6.3 Ukwenza uvavanyo lweendlela ezazibhengeziwe ngaphambili (isoloty 11) — oku kuya kuba yinkqubo enye yokuvavanywa kweekhilomitha ezingama-32 000 eendlela ezibhengeziweyo zePhondo eziya kuthi zikhokelele ekudluliseleni iindlela kugunyaziwe weendlela ofanelekileyo, apho ezinye iindlela zigcinwa liPhondo kwaye ezinye zigqithiselwa koomasipala ngokomsebenzi weendlela kunye nobungakanani boomasipala abachaphazelekayo. Le nkqubo iyahubeka kwiSixeko saseKapa, kwaye abacebisi baza kuqhubeka ukunceda iPhondo ekwenzeni le nkqubo nakwabanye oomasipala.
- 6.4 Ukuqulunqwa nokuhlaziywa koluhlu kunye neengcombolo ezoyanyaniswa nezibonelelo zezothutho (isoloty le-19) — uninzi lweengcombolo ezifunekayo ukwenza uluhlu kunye neengcombolo esele zikhona kuvimba weengcombolo ze-RNIS yeSebe, nothotyelo lwesoloty 19 kuya kufuna kakhulu ukubunjwa ngokutsha nokongezwa kweerekhodi ezikhoyo ezikhoyo kwiinkqubo ezahlukeneyo ukuhlanganisa zonke iingcombolo kwinkqubo edityanisiweyo.
- 6.5 Ukuhlawulwa kwenkxasomali yezendlela koomasipala kulawulo lweendlela zokudibana ngokubaluleka (isoloty 28 ukuya kuma-31) — imigaqo yenkxaso yendlela yoMthetho oSayilwayo, eyongezwe yiMigaqo, iyakuthatha indawo yezibonelelo zoMthetho weNdlela iSebe elineminnyaka emininzi lixhasa inkxaso iindlela ezinkulu (kulo Mthetho oSayilwayo utshintshwe amagama weendlela). ISebe njengangoku lenza uhlahlomali olumalunga nezigidi ezili-R100 qho ngonyaka kwiintlawulo zenkxasomali. Ukuhlawulwa kwenkxasomali koomasipala kuxhomekeke kuvavanyo lweSebe nakwimithombo yemali ekhoyo yeSebe.

7. ISAKHONO KWEZOMTHETHO

UMphathiswa wePhondo ophathiswe ezothutho kunye nemisebenzi yoluntu wanelisekile kukuba iziqulatho zoMthetho oSayilwayo ziwela kubuchule bolawulo lwezomthetho bePhondo.
